Investor Presentation

November 2022

Forward Looking Statements

Definitions: Capitalized terms used in this presentation but not otherwise defined herein have the meanings ascribed thereto in the Management's Discussion and Analysis dated October 27, 2022 of Eldorado Gold Corporation for the three months ended September 30, 2022 (the "MD&A").

Cautionary Note about Forward-looking Statements and Information: Certain of the statements made and information provided in this presentation are forward-looking statements or information within the meaning of the United States Private Securities Litigation Reform Act of 1995 and applicable Canadian securities laws. Often, these forward-looking statements and forward-looking information can be identified by the use of words such as "anticipates", "believes", "budget", "committed", "confident", "continue", "estimates", "expects", "focus", "forecasts", "foresee", "forward", "future", "goal", "guidance", "intends", "opportunity", "outlook", "plans", "potential", "prospective", "signal", "strive", "target", "underway", "upcoming", "upside" or the negatives thereof or variations of such words and phrases or statements that certain actions, events or results "can", "could", "likely", "may", "might", "will" or "would" be taken, occur or be achieved.

Forward-looking statements or information contained in this presentation include, but are not limited to, statements or information with respect to: the Company's ability to enter into definitive documentation in respect of the project finance facility for the Skouries project ("Term Facility"), on the terms set out in the non-binding term sheet, on acceptable terms or at all; the terms and conditions of the Term Facility, including the facility amount (including as a percentage of the total funding requirement), interest rate, cost overrun provisions and shareholder support; timing of definitive documentation in respect of the Term Facility; the Company's ability to participate in the European Union Recovery and Resilience Facility; assuming definitive documentation is entered into, the completion and drawdown of the proceeds of the Term Facility including the timing thereof; the Company's ability to obtain complimentary sources of funding including joint-venture equity partners and metal streams and the use of proceeds therefrom; the impact of the Term Facility and funding of Skouries on the Company's operations, infrastructure, opportunities, financial condition, access to capital and overall strategy; the Company's ability to successfully advance the Skouries project and achieve the results provided for in the Skouries feasibility study; the results of the feasibility study, including the forecasts for the economics, life of mine, required capital, costs, and cash flow at the Skouries project; expected production, including grade, at our properties and at the Tocantinzinho project; forecasted NPV, IRR, EBITDA, and AISC; expectations regarding advancement and development of the Skouries project, including the ability to meet expectations and the timing thereof; expectations on mining operations; requirements for permitting; expectations on emissions; the social and economic impacts and benefits of the Skouries project on the Company's stakeholders, including in respect of local employment and procurement and in local communities; estimates of Mineral Resources and Reserves, including all underlying assumptions, and the conversion of Mineral Resources to Mineral Reserves; the duration, extent and other implications of production challenges and cost increases, including those in respect of COVID-19, the Russia-Ukraine war and restrictions and suspensions with respect to the Company's operations; the Company's 2022 annual production and cost guidance, including our individual mine production; the timing of production; the timing of resource conversion drilling; the optimization and development of Greek operations, including benefits, risks, financing and the Amended Investment Agreement related thereto; planned investments in Greece by other entities; the completion, availability and benefits of processing facilities and transportation equipment; government approvals; government measures relating to cost increases; completion and timing of, and consideration expected to be received in, the sale of the Certej project; sustainability targets, practices and strategy; re-rating potential; non-IFRS financial measures and ratios; risk factors affecting our business; our expectation as to our future financial and operating performance, including future cash flow, estimated cash costs, expected metallurgical recoveries and gold price outlook; and our strategy, plans and goals, including our proposed exploration, development, construction, permitting and operating plans and priorities, related timelines and schedules. Forward-looking statements and forward-looking information by their nature are based on assumptions and involve known and unknown risks, uncertainties and other factors, which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements or information.

We have made certain assumptions about the forward-looking statements and information, including assumptions about: our ability to enter into definitive documentation for the Term Facility on the terms set forth in the non-binding term sheet, on acceptable terms or at all, and to satisfy the conditions precedent to closing and advances thereunder (including eligibility for, and the allocation of funding from the European Union Recovery and Resilience Fund, satisfaction of remaining customary due diligence and other conditions and approvals); the assumption that board approval for a Skouries financing package and re-start of construction will be obtained; our ability to meet our timing objectives for definitive documentation and first drawdown of funds; our ability to execute our plans relating to the Skouries project as set out in the feasibility study, including the timing thereof; ability to obtain all required approvals and permits; the assumptions provided for in the feasibility study will be accurate, including cost estimates; no changes in input costs, exchange rates, development and gold; the geopolitical, economic, permitting and legal climate that we operate in, including at the Skouries project; timely satisfaction of the conditions precedent to closing the sale of the Certej project; our preliminary gold production and our guidance, benefits of the completion of the decline at Lamaque, the improvements at Kisladag and the optimization of Greek operations; how the world-wide economic and social impact of COVID-19 is managed and the duration and extent of the COVID-19 pandemic; timing, cost and results of our construction and exploration; the geopolitical, economic, permitting and legal climate that we operate in; the future price of gold and other commodities; the global concentrate market; exchange rates; anticipated values, costs, expenses and working capital requirements; production and metallurgical recoveries; mineral reserves and resources; the commitment of other entities to make planned investments in Greece; and the impact of acquisitions, dispositions, suspensions or delays on our business and the ability to achieve our goals. In addition, except where otherwise stated, we have assumed a continuation of existing business operations on substantially the same basis as exists at the time of this presentation.

Even though our management believes that the assumptions made and the expectations represented by such statements or information are reasonable, there can be no assurance that the forward-looking statement or information will prove to be accurate. Many assumptions may be difficult to predict and are beyond our control.

Furthermore, should one or more of the risks, uncertainties or other factors materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described in forward-looking statements or information. These risks, uncertainties and other factors include, among others, the following: increases in financing costs or adverse changes to the terms of available financing, if any, for the Skouries project; ability to enter into definitive documentation for the Term Facility on acceptable terms or at all; ability to satisfy the conditions precedent to closing and advances thereunder (including eligibility for, and the allocation of funding from the European Union Recovery and Resilience Fund, satisfaction of remaining customary due diligence and other conditions and approvals); failure or delays to receive necessary approvals or otherwise satisfy the conditions to the completion of the Term Facility; the proceeds of the Skouries financing not being available to the Company; ability to execute on plans relating to the Skouries project, including the timing thereof, ability to achieve the social impacts and benefits contemplated; inability to meet production guidance; inability to achieve the expected benefits of the completion of the decline at Lamaque, the improvements at Kisladag and the optimization of Greek operations; risks relating to the ongoing COVID-19 pandemic and any future pandemic, epidemic, endemic or similar public health threats; risks relating to our operations being located in foreign jurisdictions; community relations and social license; climate change; liquidity and financing risks; development risks; indebtedness, including current and future operating restrictions, implications of a change of control, ability to meet debt service obligations, the implications of defaulting on obligations and change in credit ratings; environmental matters; waste disposal; the global economic environment; government regulation; reliance on a limited number of smelters and off-takers; commodity price risk; mineral tenure; permits; risks relating to environmental sustainability and governance practices and performance; non-governmental organizations; corruption, bribery and sanctions; litigation and contracts; information technology systems; estimation of mineral reserves and mineral resources; production and processing estimates; credit risk; actions of activist shareholders; price volatility, volume fluctuations and dilution risk in respect of our shares; reliance on infrastructure, commodities and consumables; currency risk; inflation risk; interest rate risk; tax matters; dividends; financial reporting, including relating to the carrying value of our assets and changes in reporting standards; labour, including relating to employee/union relations, employee misconduct, key personnel, skilled workforce, expatriates and contractors; reclamation and long-term obligations; regulated substances; necessary equipment; co-ownership of our properties; acquisitions, including integration risks, and dispositions; the unavailability of insurance; conflicts of interest; compliance with privacy legislation; reputational issues; competition, as well as those risk factors discussed in the sections titled "Forward-looking information and risks" and "Risk factors in our business" in our most recent Annual Information Form & Form 40-F. The reader is directed to carefully review the detailed risk discussion in our most recent Annual Information Form & Form 40-F filed on SEDAR and EDGAR under our Company name, which discussion is incorporated by reference in this presentation, for a fuller understanding of the risks and uncertainties that affect our business and operations.

The inclusion of forward-looking statements and information is designed to help you understand management's current views of our near- and longer-term prospects, and it may not be appropriate for other purposes.

There can be no assurance that forward-looking statements or information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, you should not place undue reliance on the forward-looking statements or information contained herein. Except as required by law, we do not expect to update forward-looking statements and information continually as conditions change and you are referred to the full discussion of the Company's business contained in the Company's reports filed with the securities regulatory authorities in Canada and the United States.

Financial Information and condensed statements contained herein or attached hereto may not be suitable for readers that are unfamiliar with the Company and is not a substitute for reading the Company's financial statements and related Management's Discussion and Analysis available on our website and on SEDAR under our Company name. The reader is directed to carefully review such document for a full understanding of the financial information summarized herein.

Cautionary Note to US Investors Concerning Estimates of Measured, Indicated and Inferred Resources: Technical disclosure regarding the Company's properties included herein has been prepared in accordance with the requirements of the securities laws in effect in Canada, which differ from the requirements of United States securities laws. The terms "mineral reserve", "proven mineral reserve", "probable mineral reserve", "mineral resource", "measured mineral resource", "indicated mineral resource" and "inferred mineral resource" are Canadian mining terms as defined in accordance with National Instrument 43-101 – *Standards of Disclosure for Mineral Projects* ("NI 43-101"). NI 43-101 is a rule developed by the Canadian Securities Administrators that establishes standards for all public disclosure an issuer makes of scientific and technical information concerning mineral projects. These standards differ from the requirements of the United States Securities and Exchange Commission (the "SEC") applicable to domestic United States reporting companies. Accordingly, information contained herein contain descriptions of our mineral deposits that may not be comparable to similar information made public by United States companies subject to the SEC's reporting and disclosure requirements.

Qualified Person: Except as otherwise noted, scientific and technical information contained in this presentation was reviewed and approved by Simon Hille, FAusIMM, Senior Vice President, Technical Services for Eldorado Gold Corporation, who is the "qualified person" under NI 43-101 responsible for preparing and supervising the preparation of the scientific or technical information contained in this presentation and verifying the technical data disclosed in this presentation relating to our operating mines and development projects. Mineral resources that are not mineral reserves do not have demonstrated economic viability. Inferred mineral resources are considered too speculative geologically to have the economic considerations applied to them that would enable them to be categorized as mineral reserves. Jacques Simoneau. P.Geo a member in good standing of the Ordre des Géologues du Québec, is the qualified person as defined in NI 43-101 responsible for, and has verified and approved, the scientific and technical disclosure contained in this press release for the Quebec projects.

Non-IFRS Measures

Cautionary Note about Non-IFRS Measures

Certain non-IFRS financial measures and ratios are included in this presentation, including average realized gold price per ounce sold, cash operating costs and cash operating costs per ounce sold, total cash costs and total cash costs per ounce sold, all-in sustaining costs (“AISC”) and AISC per ounce sold, adjusted net earnings/(loss) attributable to shareholders, adjusted net earnings/(loss) per share attributable to shareholders, working capital and cash flow from operating activities before changes in working capital, earnings before interest, taxes and depreciation and amortization (“EBITDA”), EBITDA margin, and adjusted earnings before interest, taxes and depreciation and amortization (“Adjusted EBITDA”), free cash flow and sustaining and growth capital expenditures**.**

The Company believes that these measures and ratios, in addition to conventional measures and ratios prepared in accordance with International Financial Reporting Standards (“IFRS”), provide investors an improved ability to evaluate the underlying performance of the Company. The non-IFRS and other non-financial measures and ratios are intended to provide additional information and should not be considered in isolation or as a substitute for measures or ratios of performance prepared in accordance with IFRS. These measures and ratios do not have any standardized meaning prescribed under IFRS, and therefore may not be comparable to other issuers.

Certain additional disclosures for these non-IFRS measures, including quantitative reconciliations to the most directly comparable IFRS financial measures, are incorporated by reference herein and can be found in the section ‘Non-IFRS and Other Financial Measures and Ratios’ starting at page 27 in the Company’s September 30, 2022 MD&A available on SEDAR at www.sedar.com and on the Company’s website under the ‘Investors’ section.

Non-IFRS Measure	Most Directly Comparable IFRS Measure	Q3 2022
Cash operating costs (C1)	Production costs	$123.5 M
Total cash costs (C2)		
AISC		
Average realized gold price per ounce sold	Revenue	$217.7 M
EBITDA	Earnings (loss) from continuing operations before income tax	($27.1) M
Adjusted EBITDA		
Adjusted net earnings/(loss)	Net earnings (loss) attributable to shareholders of the Company from continuing operations	($50.5) M
Adjusted net earnings/(loss) per share		
Cash flow from operations before changes in non-cash working capital	Net cash generated from operating activities of continuing operations	$52.5 M
Free cash flow		
Sustaining capital expenditures	Additions to property, plant and equipment during the period	$73.1 M
Growth capital expenditures

Diverse Asset Portfolio

- Operations in Türkiye, Greece and Canada
- 15.3Moz of P&P gold reserves(2)

Pipeline of Strategic Growth Projects

- Development projects: Skouries, Perama Hill
- Annual production expected to increase to 525,000 ozs in 2026 through organic growth projects at existing operations

Low-Cost Operator

- Eldorado's FY 2021 total cash cost per ounce sold(1) of $715/oz is below industry average

eldorado gold

(1) These are non-IFRS financial measures or ratios. See Slide 2 'Non-IFRS Measures' for more information.
(2) Please refer to the Appendix and the Company's Annual Information Form (AIF) filed March 31, 2022 for more information with respect to material properties, mineral resources and mineral reserves.

Strong Investment Rationale

Eldorado is driving investor returns by focusing on four key areas

Pipeline of Strategic Growth Projects

- **Skouries**: Feasibility Study results of \$1.3B $NPV_{(5\%)}$, and 19% IRR[1]. Estimated Phase 1 capital cost to complete Skouries project is approximately \$845M
- **Kışladağ**: Increase throughput and recovery
- **Lamaque**: Exploration upside from nearby targets

Attractive Valuation

- Eldorado trades at 0.4x P/NAV versus peers at 0.7x P/NAV
- Advancing high-quality Greek assets creates re-rating potential

Focused on ESG

- Strong ESG performance as a mid-cap miner
- Diversity/inclusion, adherence to WGC Conflict Free Gold Standards, best practices for tailings management

Financial Position

- Cash, cash equivalents, and term deposits of \$306M as of September 30, 2022
- Senior Notes lowers cost of debt & will allow Eldorado to pursue a broader range of funding alternatives for the development of Kassandra assets in Greece

eldorado gold

(1) NPV and IRR based on long-term prices of \$1,500 per ounce gold and \$3.85 per pound copper

Upcoming Catalysts

Focused on upcoming value drivers for 2022

Upcoming Catalysts

- **Deliver operational guidance**
- **Türkiye:**
  - Kışladağ opportunity to increase throughput and recoveries
    - Installation of larger conveyors in Q4 2022 to improve material handling and throughput rates
  - Resource conversion of Kokarpinar & Bati at Efemçukuru
- **Québec:**
  - Resource conversion drilling of upper two-thirds Ormaque deposit
- **Greece**:
  - Skouries financing package
  - Seek Board approval, target re-start of construction at Skouries in H2 2022
  - Continued productivity improvements at Olympias following positive progress in 2021. Potential expansion to 650ktpa

Skouries Feasibility Study at a Glance

Strong production and low cost expected for years to come

AISC[1,2,3]	Capital	IRR	Payback
($17/oz)	$845M	19%	<4 Years
Low-end of the cost curve	*To first production*	*Internal Rate of Return*	*From 1st production*

Cash Operating Costs[1]	EBITDA Margin[1]	NPV[4]	Au Production
($368/oz)	~55%	$1.3B	140,000 oz/yr (312 K oz AuEq)
Bottom of the cost curve	*Delivering US$125/yr for 1st 5yrs*	*Net Present Value*	*Eldorado Gold 2021 output: 475,912 oz*

eldorado gold

[1] These are non-IFRS financial measures or ratios. See Slide 2 'Non-IFRS Measures' for more information; [2] AISC: All in Sustaining Cost including by-product; [3] Skouries' revenues from copper concentrate sales will fund entire operating cost of the project; significantly decreasing Eldorado's corporate total cash cost per ounce. Gold price assumption is $1,500 per ounce. Copper price assumption is $3.85 per pound; [4] After-tax. NPV @ 5% discount rate

Skouries Financing Update

Signed mandate letter with Greek banks is an important step in moving Skouries forward

Skouries Financing Package Update

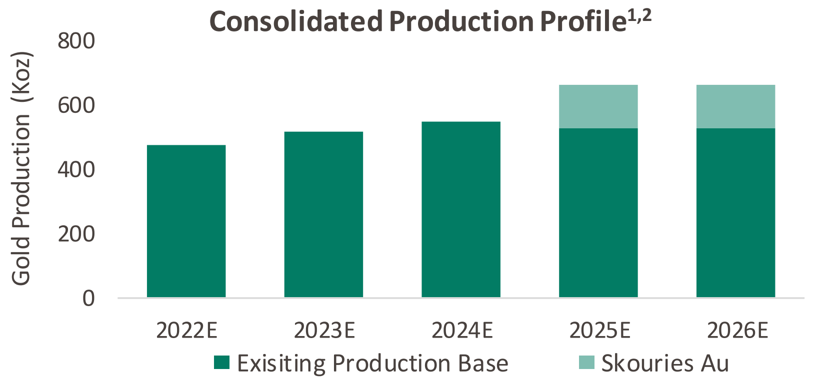
- Signed mandate letter with Greek banks for a credit committee approved €680M project finance facility for the Skouries project[1]
- Once the expected project finance facility is in place, Eldorado has the balance sheet capacity to fund the remaining capital cost to complete the project
- Continue to evaluate opportunities for complementary sources of financing
- Remain confident in the Feasibility Study capital cost estimate of $845M
- Final decision to re-start construction remains subject to Board approval, which we expect to seek in 2H/22

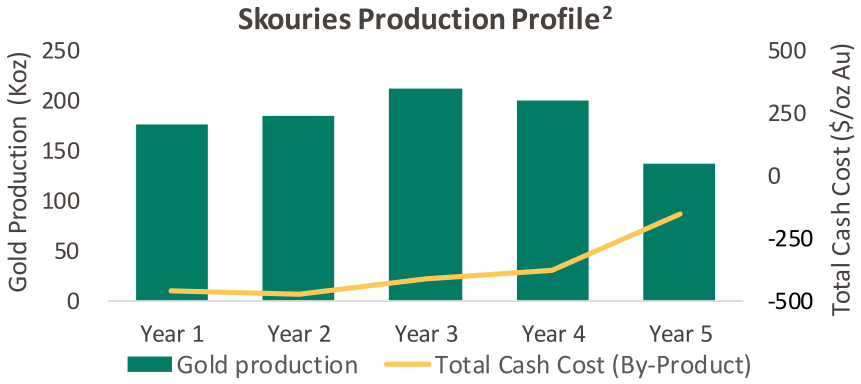
September 2022: Skouries process plant building.

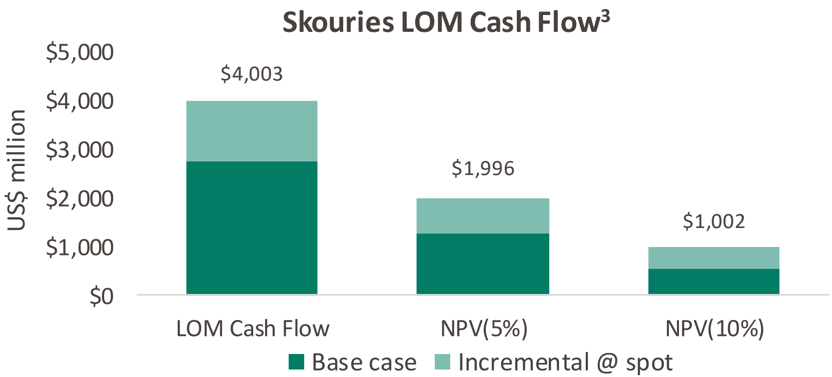
eldorado gold

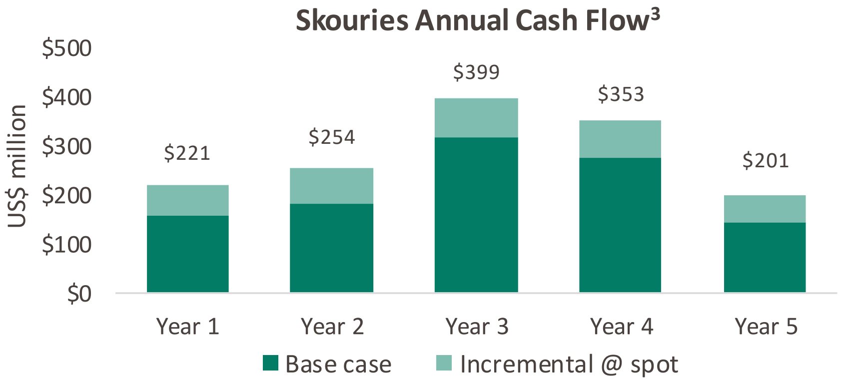
[1] Mandate letter is subject to conditions and approvals and negotiation of definitive binding loan documents. See September 7, 2022 news release for details (LINK).

The Transformative Effect of Skouries









(1) Existing production base assumes mid-point of 2022 5-year guidance for Kışladağ, Lamaque, Efemçukuru and Olympias
(2) Skouries figures based on the Skouries Technical Report filed January 22, 2022
(3) Base Case assumes 2021 FS prices ($1,500/oz Au / $3.85/lb Cu). Spot assumes $1,800/oz Au and $4.25/lb Cu

Successful Growth at Lamaque

Delivered on acquisition with demonstrated growth; Significant upside potential

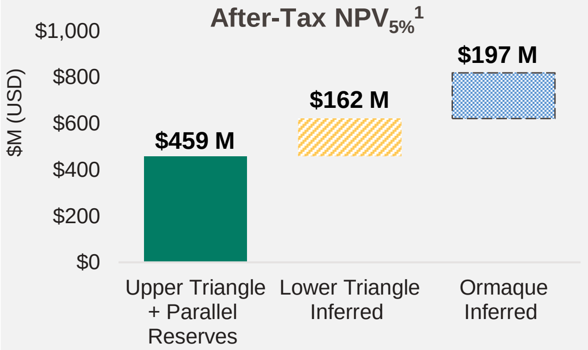
Strong track record of success since acquisition

Achieved Commercial Production
- Reached commercial production less than 2 years after the Integra acquisition

Resource and Reserve Growth
- Maiden reserve announced 8 months post acquisition; continue to replace reserves year-over-year with additional growth
- Doubling of gold resources since acquisition through exploration

Exceeded PFS Production Metrics
- Lamaque has exceeded 2018 Prefeasibility Study ("PFS") metrics in terms of tonnage and gold production
- Lamaque 2021 gold production was 153,201 ounces, 13% higher than peak production of 135,400 ounces based on the 2018 PFS

Updated Technical Study with significant upside potential



Positioned Well in Abitibi Region
- Expanded land package in the Val-d'Or region by 550% with QMX acquisition
- Acquired or large prospective land packages in Matagami, Kirkland Lake areas

Continued positive impact for local stakeholders

Sustainable Focus

Recently completed Lamaque decline project is expected to result in:
- Eliminating 26 km surface haulage and rehandling on public roads; reducing GHG emissions
- Increasing energy efficiency
- Reducing ambient noise & surface dust
- Improving overall sustainability

Operating Mine Fully Permitted
- Upper Triangle Reserves case is fully permitted under Federal and Provincial regulations
- Confident that any permitting amendments can be obtained as required for future growth

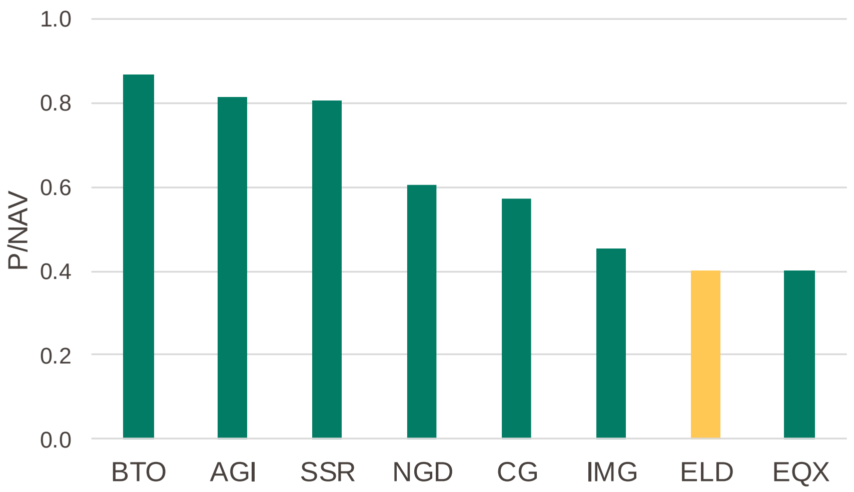
eldorado gold

The PEAs are preliminary in nature and are based on numerous assumptions and the incorporation of Inferred mineral resources. Inferred mineral resources are considered too speculative geologically to have economic considerations applied to them that would enable them to be categorized as mineral reserves and there is no certainty that the PEA will be realized. There is no guarantee that Inferred mineral resources can be converted to Indicated or Measured mineral resources and, as such, there is no guarantee that the economics described herein will be achieved. Mineral resources that are not mineral reserves do not have demonstrated economic viability.
(1) Assumes gold price of $1,500 per ounce.

Attractive Valuation

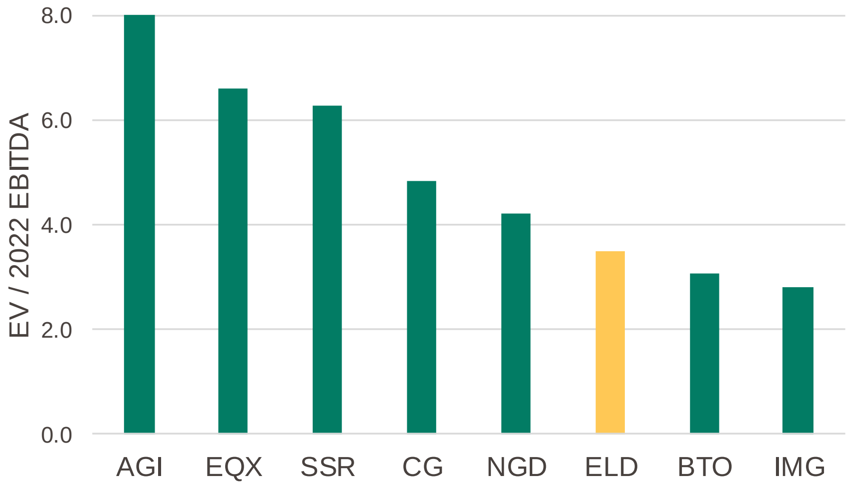
Eldorado has an attractive valuation compared to peers
Advancing high-quality Greek assets creates re-rating potential

Consensus P/NAV



Source: FactSet; data as of Oct 26, 2022.

Consensus EV/2022E EBITDA(1)



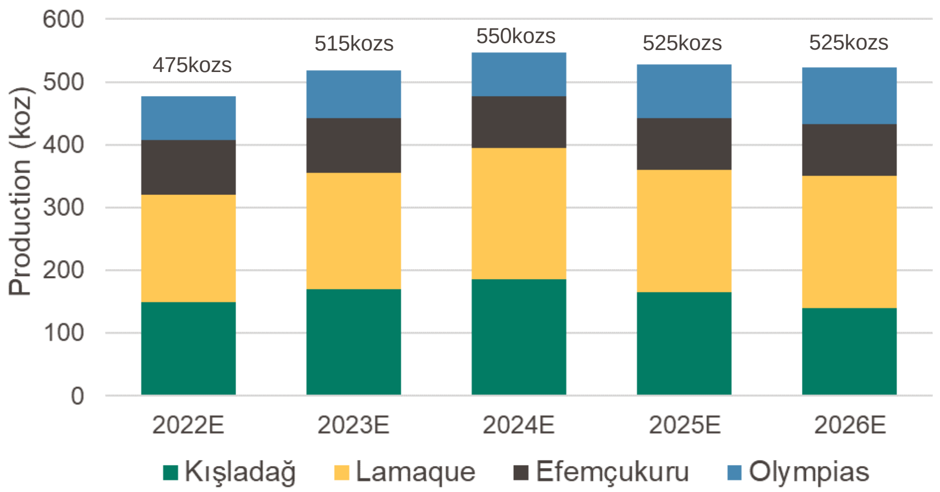
Source: FactSet; data as of Oct 26, 2022.

(1) These are non-IFRS financial measures or ratios. See Slide 2 ‘Non-IFRS Measures’ for more information.

5-Year Operating Outlook Excludes Potential Production from Skouries

Production (midpoint) increasing by 10% over 5 years driven by organic growth projects
Skouries to be included in the 5-year outlook post financing decision

5-Year Production Profile (1,2)



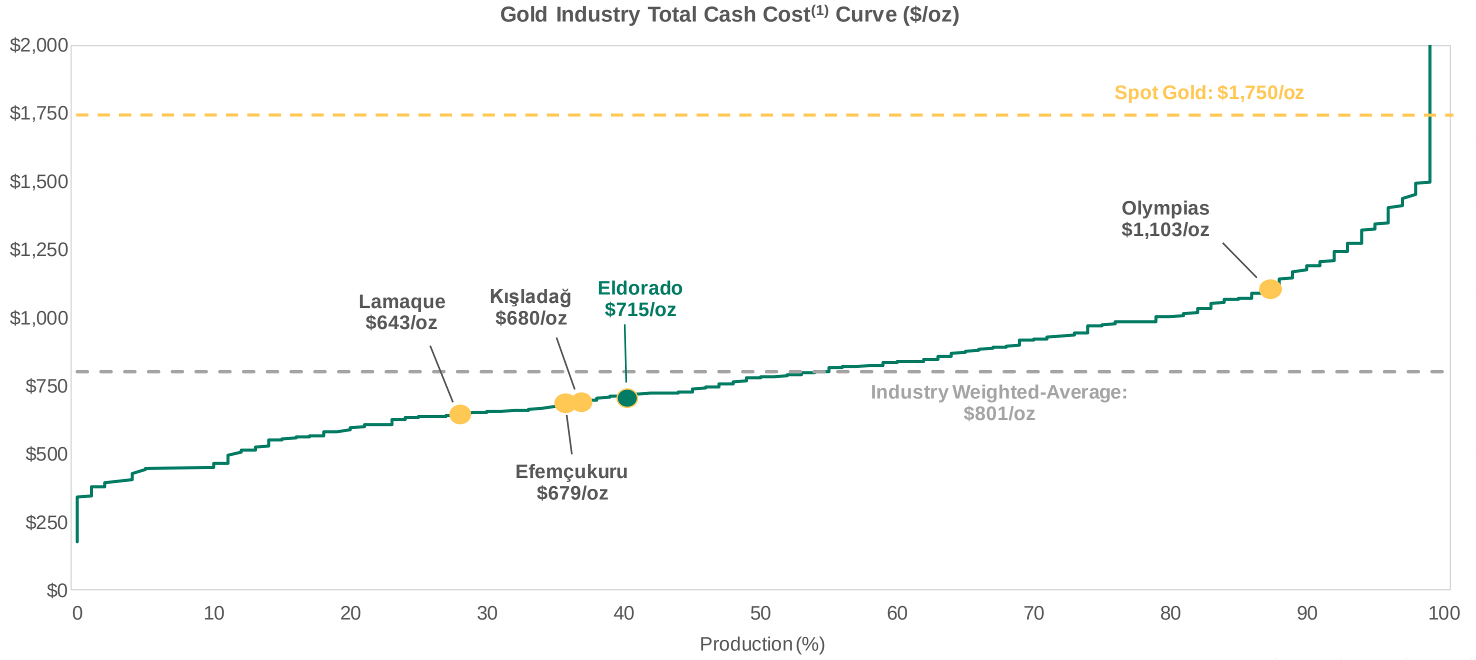
2022 Production Guidance Ranges	
Kışladağ	**145,000 – 155,000**
Lamaque	**165,000 – 175,000**
Efemçukuru	**85,000 – 90,000**
Olympias	**65,000 – 75,000**
Total	**460,000 – 490,000[3]**

eldorado gold

(1) Showing mid-point guidance. Full ranges included in appendix.
(2) Perama Hill is not included in the 5-year outlook and could provide upside to production profile.
(3) We maintain our original 2022 production guidance range of 460,000 to 490,000 ounces and are tracking towards the lower end of the range.

Low-Cost Operator

Eldorado total cash costs are currently below industry-weighted average and expected to trend lower given growth profile



Source: S&P Capital IQ 2021 Cost Curve, FactSet

NOTE: Eldorado total cash cost[1] (C2) figures from full-year 2021

(1) These are non-IFRS financial measures or ratios. See Slide 2 'Non-IFRS Measures' for more information.

ESG is a Key Priority

Peer comparison shows Eldorado as a strong ESG performer in the mid-cap mining sector

ESG actions are recognized globally

Eldorado's *Sustainability Integrated Management System* incorporates global standards including the RGMPs and *Towards Sustainable Mining*

ISS

1 = highest; 10 = lowest

GOVERNANCE QUALITYSCORE 1
HIGHEST RANKED BY ISS ESG

SUSTAINALYTICS
a Morningstar company

1 = highest; 100 = lowest

100 = Poor

ELD Score

Score = 28
(Top 15% of Peer Group)

Leading the way in ESG areas

- The Board exceeds our diversity target of having at least 30% female directors by 2022 and exceeds the other designated groups[1] target of 10%
- Lamaque is a leader in low-carbon gold mining
- Industry-leading tailings management (dry stack tailings)

Journey to Decarbonization

- Climate Change and Greenhouse Gas (“GHG”) Emissions target:
  - Mitigating GHG emissions by 30%, from 2020 levels, by 2030 on a ‘business as usual’ basis, which equates to removing approximately 65,000 tonnes of carbon dioxide equivalent by 2030

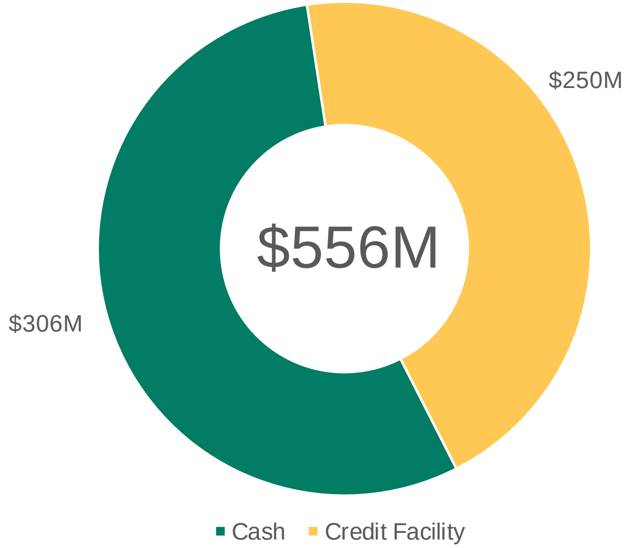
eldorado gold

(1) *Designated groups include: Indigenous peoples, people with disabilities, visible minorities and the LGBTQIA2S+ community*

Financial Position

Focus on maintaining solid financial position

Liquidity Position[1] (as of September 30, 2022)



Financial Position

- Cash position[1] of $306 million at Sept. 30, 2022
- In October 2021, Eldorado entered into a $250 million amended and restated senior secured credit facility ("Fourth ARCA") with an option to increase the available credit by $100 million through an accordion feature, and with a maturity date of October 15, 2025
- In August 2021, Eldorado completed an offering of $500 million senior unsecured notes with a coupon rate of 6.25% due September 1, 2029
  - Senior Notes lower the cost of debt and allows Eldorado to pursue a broader range of funding alternatives for the development of Kassandra assets in Greece
- We continue to focus on maintaining a solid financial position which provides flexibility to unlock value across our business

(1) Liquidity position reflects the Company's cash balance, term deposits, and its undrawn $250M credit facility. Amounts are derived from the Q3 2022 financial statements.

Operating Results

Sequential quarterly improvements realized in Q3;
Maintain full-year production guidance (lower end) and increased consolidated cost guidance

	Q3 2022			YTD 2022		
Asset	**Production (oz)**	**C1 Cost[(1)] ($/oz)**	**AISC[(1)] ($/oz)**	**Production (oz)**	**C1 Cost[(1)] ($/oz)**	**AISC[(1)] ($/oz)**
Kışladağ	37,741	752	993	95,494	800	1,049
Lamaque	42,454	650	1,106	122,748	684	1,082
Efemçukuru	22,473	709	1,039	66,322	689	1,075
Olympias	16,123	1,466	2,070	40,898	1,455	2,240
Total	**118,791**	**803**	**1,259**	**325,462**	**807**	**1,289**
2022 Guidance				**460,000 – 490,000[(2)]**	**700 – 750[(3)]**	**1,180 – 1,280[(3)]**

(1) These are non-IFRS financial measures or ratios. See Slide 2 'Non-IFRS Measures' for more information. The most directly comparable IFRS measure to C1 Cost and AISC is Production costs. (2) We maintain our original 2022 production guidance and are tracking towards the lower end of the range. (3) On July 28, 2022, we revised consolidated cost guidance.

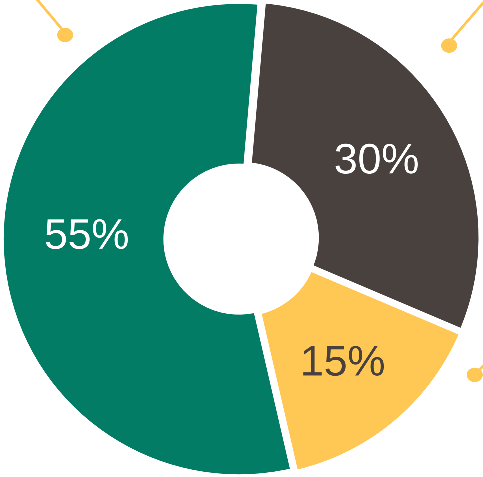
2022 Exploration Strategy

2022 Exploration guidance is $44 million to $48 million
(53% expensed, 47% capitalized)

Canada

- ~112,000 metres planned drilling, including ~22,000m of resource conversion drilling at Ormaque and Lower Triangle
- Upper and Lower Triangle C zone extensions
- Ormaque / Fortune resource expansion
- New Sigma-Lamaque targets
- Bourlamaque project target definition and drill testing

Country Spending Breakdown



Türkiye

- ~67,000 metres planned drilling, including ~38,000m of resource conversion drilling at Efemçukuru
- New Efemçukuru expansion targets
- Regional greenfields projects

Greece

- ~27,000 metres planned drilling, including ~7,000m of resource conversion drilling at Olympias
- Olympias deposit extensions
- Stratoni corridor

Eastern Canada Exploration in 2022

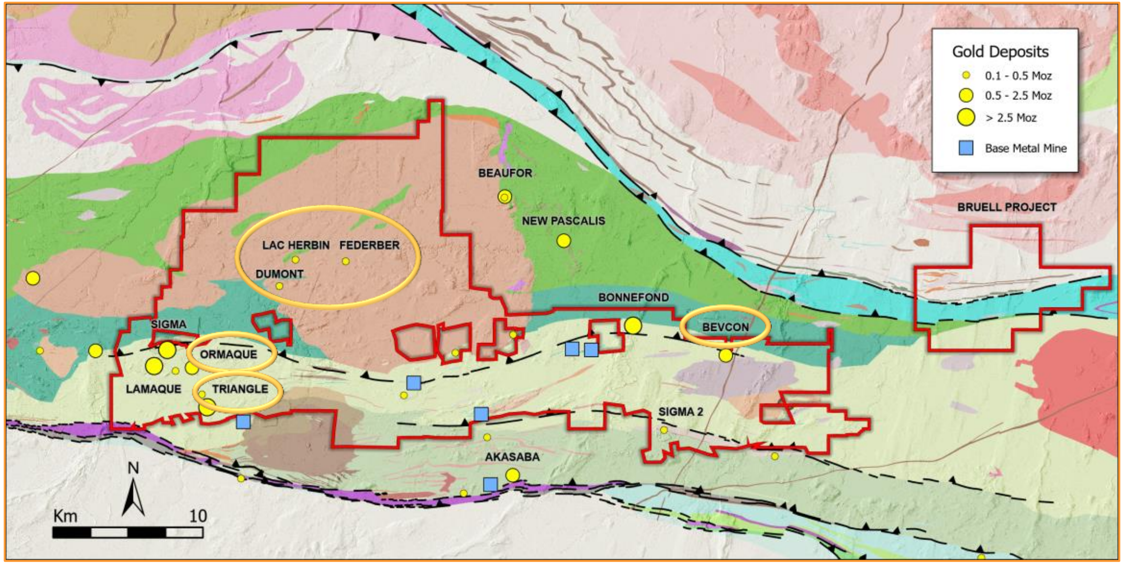
Focus on brownfields opportunities within the Lamaque / Bourlamaque (former QMX) properties

Advanced Targets

- **Ormaque:** Exploration drift & resource conversion. Testing extensions to east and at depth
- **Lower Triangle:** Resource conversion of C6, C7
- **Herbin Area:** Testing along-strike targets of historically mined areas
- **Bevcon:** Drilling extensions to shear zones previously mined at Bevcon

New Targets

- Fieldwork and 28,000m drilling planned at early-stage projects within expanded license area
- Fieldwork and geophysical surveys on optioned properties in Kirkland Lake Belt, Montgolfier, Eastern Destor-Porcupine deformation zone



Türkiye Exploration in 2022

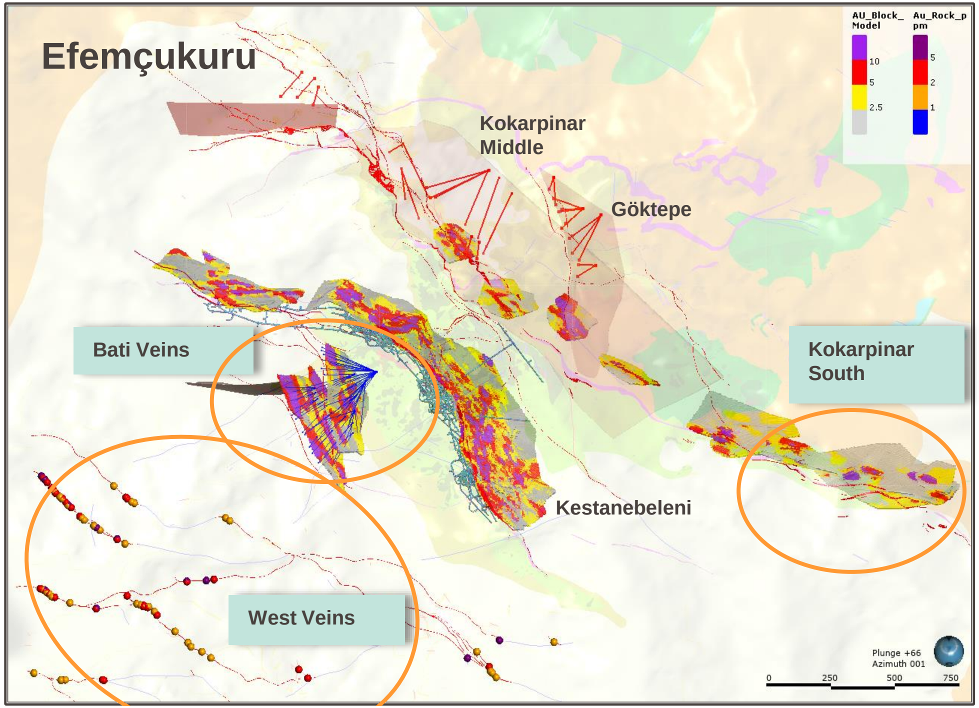
Opportunities to extend life of mine at Efemçukuru through conversion of high-grade inferred resources and testing new targets

Efemçukuru

- Inferred resource base of 629 koz available for conversion(1)
- ~38,000 m drilling planned at Kokarpinar South and Bati
- **West Veins:** Over 3 km strike length of untested veins with numerous resource-grade surface samples

Türkiye Regional Projects

- Target generation fieldwork and 7,500m drill testing at early-stage greenfields projects



eldorado gold

(1) Please refer to the Appendix and the Company's AIF filed March 31, 2022 for more information with respect to the mineral resources and mineral reserves.

Greece Exploration in 2022

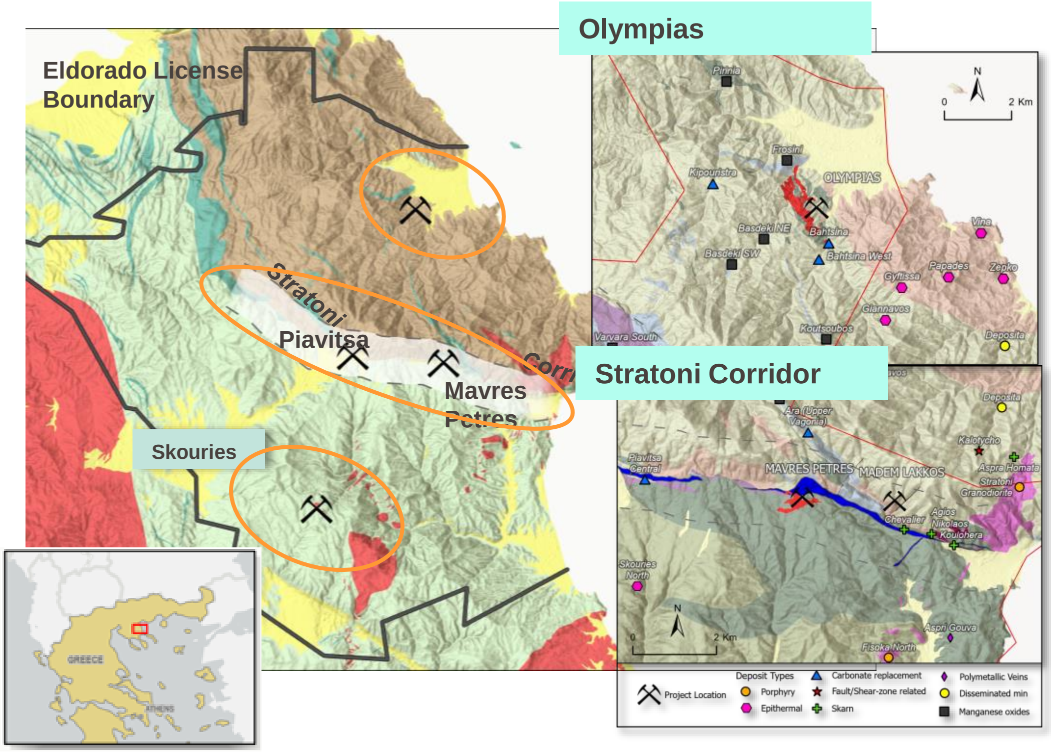
Focus on near-mine resource expansion and new brownfields targets

Target Areas

- **Skouries:** Testing new near-mine geophysical targets
- **Olympias:** 8,000 m underground resource expansion drilling of Flats, East zones
- **Stratoni Corridor:** 10,000 m resource expansion drilling; testing new gold targets

Regional Projects

- Fieldwork to define new drill targets in the Halkidiki and Sapes regions



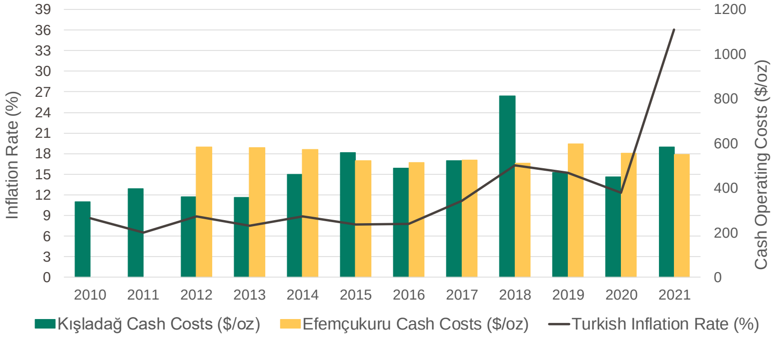
Operating Jurisdictions

History of operating in key jurisdictions

Türkiye

- 2021 Investment Attractiveness[2]: **Türkiye: 52.15/100**
- Operating in Türkiye since 2006
- Demonstrated history of 15+ years of permitting success and strong community relations

Turkish Inflation Rates vs. ELD Cash Costs[1] (Turkish Assets)



Source: FactSet, company reports

Canada

- 2021 Investment Attractiveness[2]: **Québec: 83.12/100**
- 5.5+ year Reserve life with potential from large Inferred resource[4]
- Steady production profile, large resource base and exploration upside from nearby targets

Greece

- 2021 Investment Attractiveness[2]: **Greece: N/A[3]**
- Amended Investment Agreement with Hellenic Republic in Q1 2021
  - Provides investor protection mechanisms including a permitting framework similar to other large-scale foreign investment agreements in Greece

eldorado gold

(1) These are non-IFRS financial measures or ratios. See Slide 2 'Non-IFRS Measures' for more information.
(2) Ranked by Fraser Institute. Source: www.fraserinstitute.org/sites/default/files/annual-survey-of-mining-companies-2021.pdf
(3) The 2021 Fraser Institute questionnaire included a number of jurisdictions that had insufficient responses to enable them to be included in the report.
(4) Please refer to the Appendix and the Company's AIF filed March 31, 2022 for more information with respect to the mineral resources and mineral reserves.

Operations - Overview

Diversified production base with balanced growth profile of both organic and development projects

Operations

Lamaque

Kışladağ, Efemçukuru

Olympias

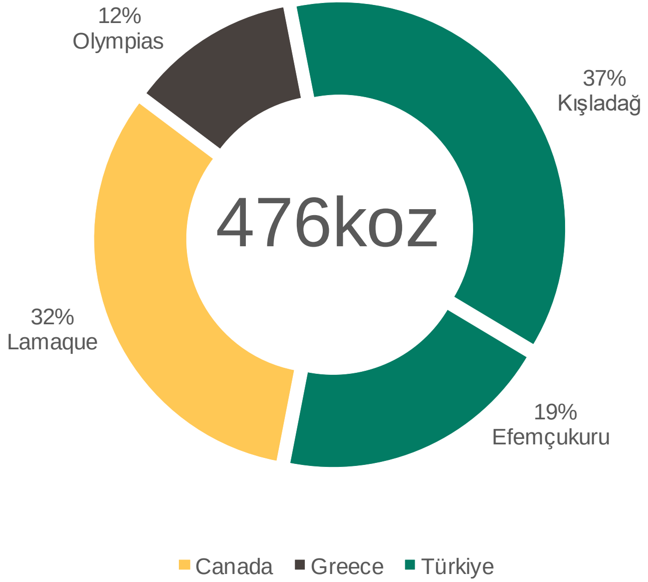
Projects

Skouries, Perama Hill

Non-Core Projects

Certej(1)

2021 Gold Production



(1) In October 2022, we entered into an agreement to sell the Certej project under which the Company is expected to receive $18 million cash and additional further contingent consideration, which is detailed in our MD&A dated October 27, 2022. Please see our MD&A for more information.

Kışladağ

Kışladağ is a low-grade, bulk-tonnage, open pit operation that uses heap leaching for gold recovery

OVERVIEW

Location	Uşak Province, Türkiye
Ownership	100%
Mine type	Open pit, heap leach
Metals mined	Gold
Deposit type	Gold porphyry
Processing method	Heap leach
Life of mine	18 years
2021 Results	174,365 ozs produced at $797/oz AISC(1) and C1 Cost(1) of $583/oz sold
2022 Q3 YTD	Production: 94,494 ozs C1 Cost(1): $800/oz sold

RESERVES AND RESOURCES (2)

	Tonnes (x1000)	Grade (g/t Au)	Contained Ounces (x1000 Au)
P&P Reserves	195,911	0.68	4,282
M&I Resources	355,836	0.60	6,822
Inferred Resources	7,529	0.44	107

Enhancing Efficiencies

- HPGR to drive 4% increase in gold recoveries, to 56%
- Pre-stripping campaign on track

eldorado gold

(1) These are non-IFRS financial measures or ratios. See Slide 2 'Non-IFRS Measures' for more information.
(2) Please refer to the Appendix and the Company's AIF filed March 31, 2022 for more information with respect to the mineral resources and mineral reserves.

Efemçukuru

High-grade underground operation located in Izmir Province in western Türkiye

OVERVIEW

Location	İzmir Province, Türkiye
Ownership	100%
Mine type	Underground
Metals mined	Gold
Processing method	Flotation circuit to produce gold concentrate
Deposit type	Epithermal gold
Life of mine	6 years
2021 Results	92,707 ozs produced at $901/oz AISC(1) and C1 Cost(1) of $551/oz sold
2022 Q3 YTD	Production: 66,322 ozs C1 Cost (1): $689/oz sold

RESERVES AND RESOURCES (2)

	Tonnes (x1000)	Grade (g/t Au)	Contained Ounces (x1000 Au)
P&P Reserves	3,377	5.71	620
M&I Resources	4,615	7.18	1,066
Inferred Resources	3,300	5.93	629

Maintain low-cost production

- Efemçukuru improvements sustain low-cost production such as the implementation of column flotation to improve concentrate grade
- Achieved cash operating costs(1) guidance for last 5 years; achieved operating performance since 2014

eldorado gold

(1) These are non-IFRS financial measures or ratios. See Slide 2 'Non-IFRS Measures' for more information.
(2) Please refer to the Appendix and the Company's AIF filed March 31, 2022 for more information with respect to the mineral resources and mineral reserves.

Lamaque

Underground gold mine located in Val-d’Or, Québec. The high-grade orogenic Triangle deposit feeds the current mine life.

OVERVIEW

Location	Québec, Canada
Ownership	100%
Mine type	Underground
Metals mined	Gold
Processing method	Milling circuit followed by a leach and CIP circuit
Deposit type	Orogenic gold veins
Life of mine	~5.5 yrs Upper Triangle ~8.5 yrs Lower Triangle and Ormaque
2021 Results	153,201 ozs produced at $1,017/oz AISC[1] and C1 Cost[1] of $616/oz sold
2022 Q3 YTD	Production: 122,748 ozs C1 Cost[1]: $684/oz sold

RESERVES AND RESOURCES [2]

	Tonnes (x1000)	Grade (g/t Au)	Contained Ounces (x1000 Au)
P&P Reserves	4,656	7.29	1,091
M&I Resources	7,122	8.46	1,937
Inferred Resources – All Lamaque	8,880	6.87	1,962
Inferred Resource – Ormaque[3]	2,223	11.74	839
Inferred Resources – Lower Triangle	6,408	6.89	1,420

Exploration Upside

- Large resource base and exploration upside from nearby targets
- Strategic land positions in highly-prospective jurisdictions; QMX acquisition increased land package by 5.5x

(1) These are non-IFRS financial measures or ratios. See Slide 2 ‘Non-IFRS Measures’ for more information. (2) Please refer to the Appendix and the Company’s AIF filed March 31, 2022 for more information with respect to the mineral resources and mineral reserves. (3) Resource updated as of December 31, 2021 as per Company’s news release dated February 24, 2022.

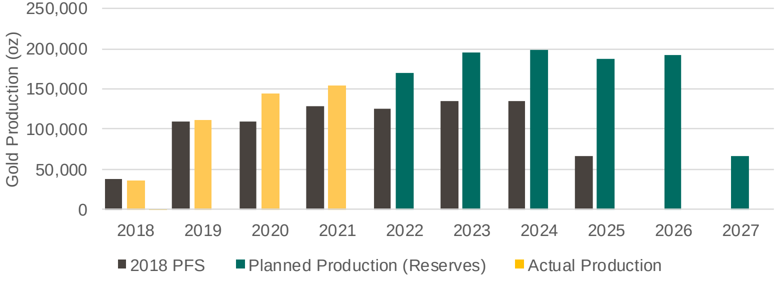
Lamaque Growth Plan

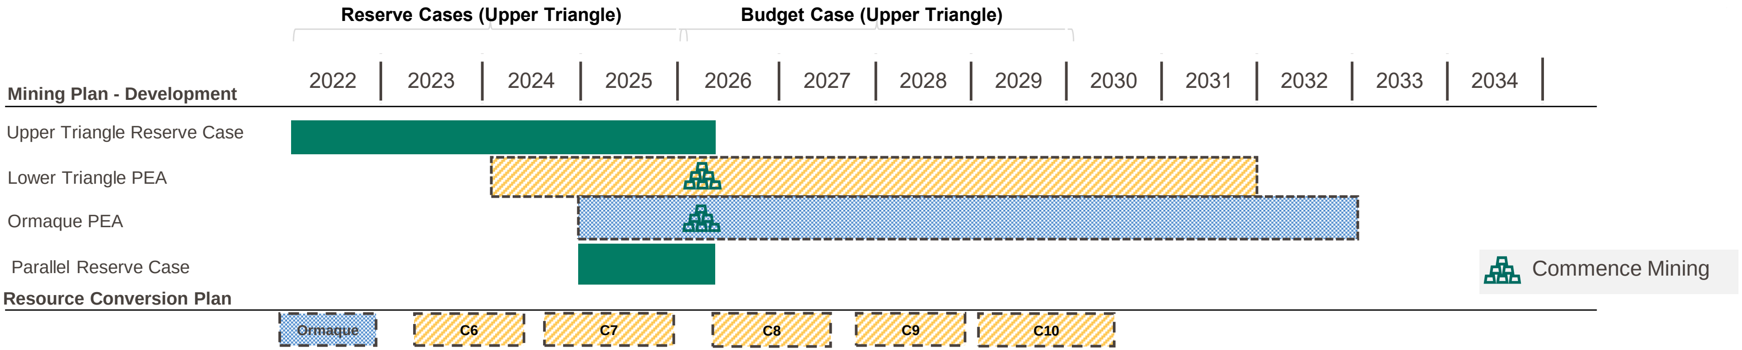
Our growth plan entails staged mine development and resource conversion

Significant growth since acquisition

- Actual and planned production exceeds 2018 PFS
- Extended mine life with **~5.5 years** of production from Upper Triangle reserves, and potential for an additional **~8.5 years** of mine life from Lower Triangle and Ormaque inferred resources

Gold Production for the Upper Triangle Reserve Case





The PEAs are preliminary in nature and are based on numerous assumptions and the incorporation of Inferred mineral resources. Inferred mineral resources are considered too speculative geologically to have economic considerations applied to them that would enable them to be categorized as mineral reserves and there is no certainty that the PEA will be realized. There is no guarantee that Inferred mineral resources can be converted to Indicated or Measured mineral resources and, as such, there is no guarantee that the economics described herein will be achieved. Mineral resources that are not mineral reserves do not have demonstrated economic viability.

Olympias

Carbonate replacement style deposit with high gold-grades and an orebody that will allow for mining rates up to 1 million tonnes per year

OVERVIEW

Location	Halkidiki Peninsula, Greece
Ownership	100%
Mine type	Underground
Metals mined	Gold, Silver, Lead, Zinc
Processing method	Milling circuit followed by flotation
Commercial production	2017
Life of mine	19 years
2021 Results	55,577 ozs produced at $1,715/oz AISC(1) and C1 Cost(1) of $930/oz sold
2022 Q3 YTD	Production: 40,898 ozs C1 Cost(1): $1,455/oz sold

RESERVES AND RESOURCES (2)

	Tonnes (x1000)	Grade (g/t Au)	Contained Ounces (x1000 Au)	Grade (g/t Ag)	Contained Ounces (x1000 Ag)
P&P Reserves	9,337	6.63	1,990	121	36,428
M&I Resources	13,248	8.00	3,409	143	61,043
Inferred Resources	2,092	8.41	566	179	12,070

Focus on Growth

- Continue to work on productivity improvements
- Plans to expand throughput to 650,000 tpa

eldorado gold

(1) These are non-IFRS financial measures or ratios. See Slide 2 'Non-IFRS Measures' for more information.
(2) Please refer to the Appendix and the Company's AIF filed March 31, 2022 for more information with respect to the mineral resources and mineral reserves.

Skouries

High-grade gold-copper porphyry deposit that is a key driver of Eldorado's growth story

OVERVIEW

Location	Halkidiki Peninsula, Greece
Deposit type	Gold-copper porphyry
Ownership	100% Eldorado
Mining/ Processing	Open pit & underground / flotation & gravity
Products produced	Gold doré, copper/gold concentrate
Production target	~ 2.5 years after construction is restarted
Contained metal in Proven & Probable Reserves (5,6)	3.6 Moz Au, 740 Mlbs Cu
Contained metal in Measured & Indicated Resources (5,6)	5.0 Moz Au, 1.1 Blbs Cu

Life of Mine (LOM) Project Economics(2)

		At Spot Au & Cu(3)
Annual gold production	140,000 oz	
Annual gold equivalent production	312,000 oz	
Cash operating costs(1)	$(368)/oz	$(559)/oz
AISC(1)	$(17)/oz	$(147)/oz
NPV-5% (4)	$1.3 B	$1.8 B
Project IRR (4)	19%	24%

Advancing Skouries

- Received dry stack tailings permit approval in Q2 2021
- Released updated feasibility study in Q4 2021
- Subject to financing & Board approval, target re-start of construction at Skouries in H2 2022

eldorado gold

(1) These are non-IFRS financial measures or ratios. See Slide 2 'Non-IFRS Measures' for more information; (2) Here and elsewhere in this presentation data is from the Skouries Technical Report dated January 2022; (3) $1,800/oz Au, $4.25/lb Cu; (4) After tax, based on $1,500/oz Au, $3.85/lb Cu; (5) $1,300/oz Au, $2.75/lb Cu; (6) Please refer to the Appendix and the Company's AIF filed March 31, 2022 for more information with respect to the mineral resources and mineral reserves.

Skouries will be a Resilient, Modern, Long-Life, Low-Cost Asset

A Top Tier Asset with potential to have a Significant, Positive Impact on Eldorado Gold

- **High-grade** and **long-life** gold-copper asset with transformational exploration **upside** through extensions at depth and discovery of satellite orebodies
- Provides a foundation for regional growth through **future expansions** in the Halkidiki region

Designed for Operational Excellence

- Robust project economics, including a **negative $17/oz all in sustaining cost**[1,2]
- Site operations significantly **de-risked** through existing infrastructure, lessons learned and recent feasibility study
- Skouries to decrease Eldorado's consolidated total cash cost per ounce ~40%[1,2,3]

Sustainable Development Enables Long Term Growth

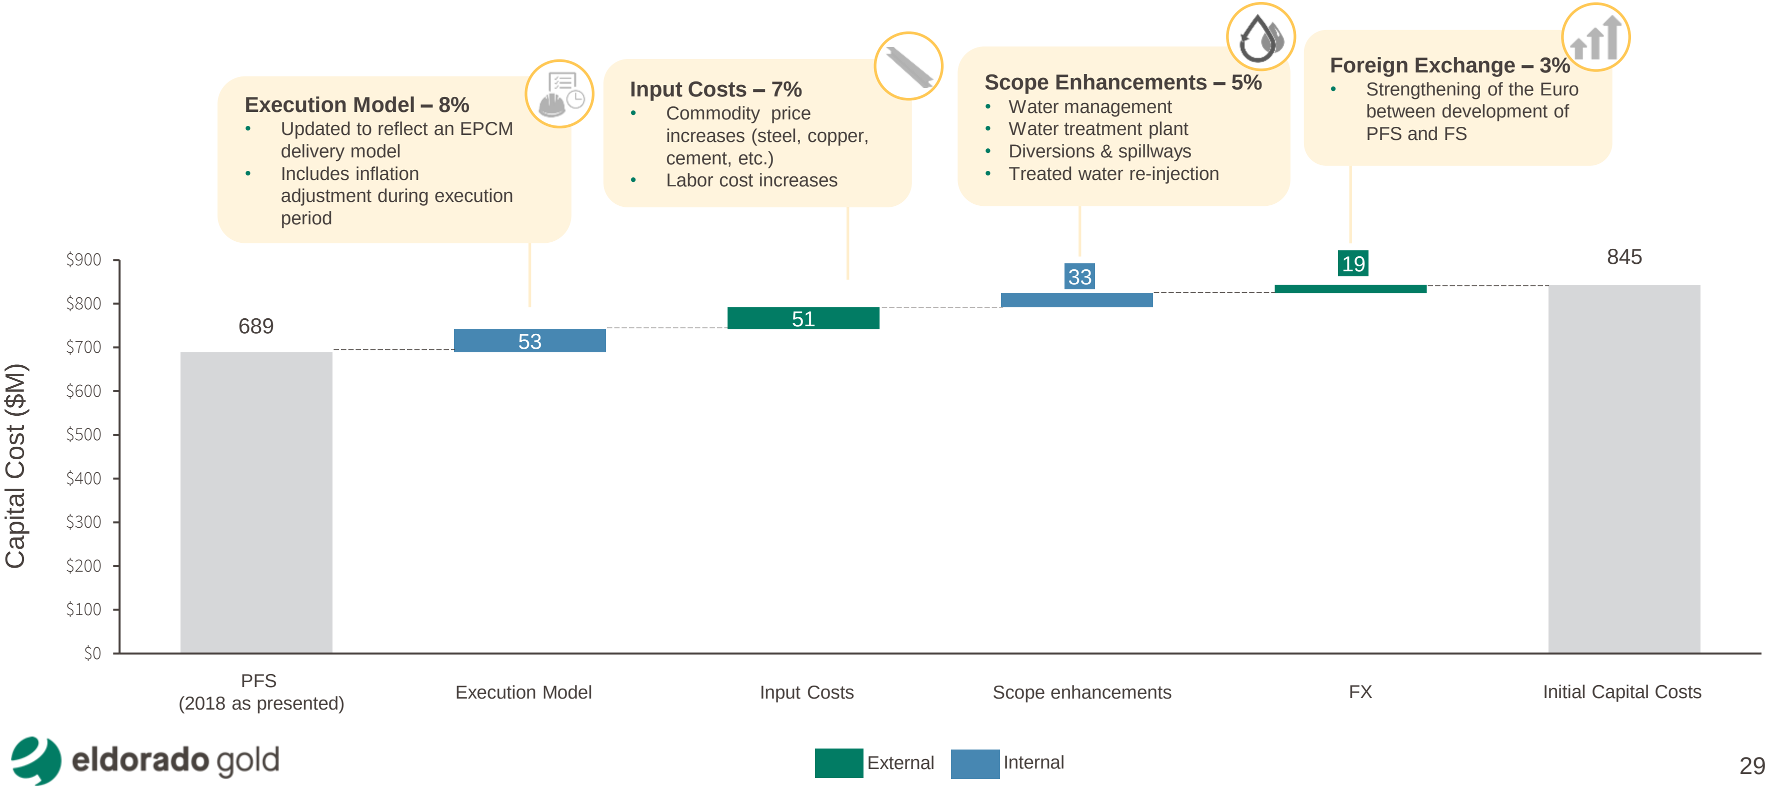
- Safety & environment embedded in design - **water management** and **dry stack tailings**
- Climate change effects are also incorporated in the improved water management plan, given changing weather events
- Strong relationships and transparent engagement with government as **demonstrated by the Amended Investment Agreement** ratified by Parliament

eldorado gold

(1) These are non-IFRS financial measures or ratios. See Slide 2 'Non-IFRS Measures' for more information; (2) Skouries' revenues from copper concentrate sales will fund entire operating cost of the project; significantly decreasing Eldorado's corporate total cash cost per ounce. Gold price assumption is $1,500 per ounce. Copper price assumption is $3.85 per pound; (3) 40% reduction when compared to 2020 cash operating costs

Skouries Capital Cost: Evolution from PFS to FS

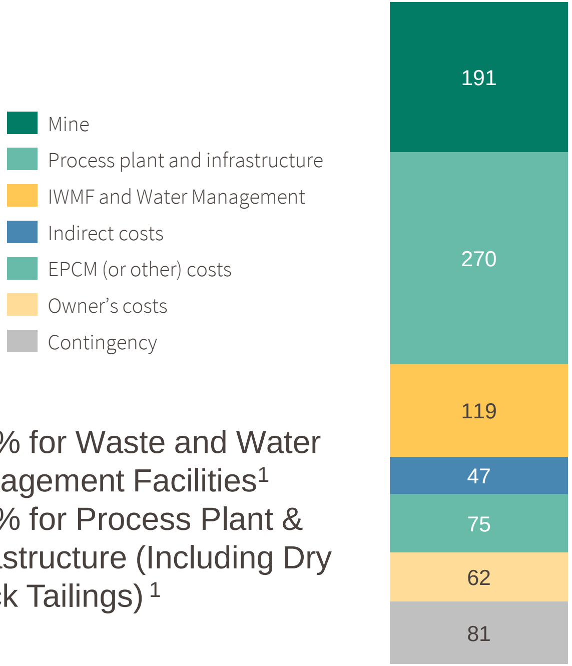
FS reflects updated input estimates, enhancements, and a more robust execution model



Capital Cost Breakdown

Reflects an enhanced execution plan and improved project sustainability

Capital Cost Breakdown ($M)



- ~20% for Waste and Water Management Facilities[1]
- ~50% for Process Plant & Infrastructure (Including Dry Stack Tailings) [1]

Primary Features

- Remain confident in the Feasibility Study capital cost estimate of $845M
- The project is half built with major processing equipment already purchased and installed
- In Q2-22, a $17M purchase order was executed for the filter press, in line with the Feasibility Study estimate
- Approximately half of the capital cost estimate is related to labour
  - The local area has a history of mining and there is a ready pool of skilled and unskilled labour

eldorado gold

[1] Based on direct costs

Perama Hill

Low-cost epithermal gold-silver project with transformative growth potential

OVERVIEW

Location	Thrace, Greece
Ownership	100%
Mine type	Open pit
Metals mined	Gold, Silver
Deposit type	Epithermal gold-silver
Life of mine(3)	10 years
Grades(3)	High grade (3.2 g/t), open pit strip ratio of ~0.3
Expected production(3)	Approximately 100,000 oz Au per year
Expected costs(3)	Cash operating costs(1) $430/oz

RESERVES AND RESOURCES (2)

	Tonnes (x1000)	Grade (g/t Au)	Contained Ounces (x1000 Au)	Grade (g/t Ag)	Contained Ounces (x1000 Ag)
P&P Reserves	12,498	3.11	1,250	7	2,680
M&I Resources	14,066	3.04	1,374	7	2,994
Inferred Resources	1,136	1.63	59	2	83

Upcoming Catalysts

- Working towards the start of the strategic EIA process, including updated technical study
- Exploration potential in the Thrace region, supporting opportunities for growth

eldorado gold

(1) These are non-IFRS financial measures or ratios. See Slide 2 ‘Non-IFRS Measures’ for more information.
(2) Please refer to the Appendix and the Company’s AIF filed March 31, 2022 for more information with respect to the mineral resources and mineral reserves.
(3) Here and elsewhere in this presentation data is from the Perama Hill Technical Report dated January 2010.

Appendix

Eldorado Gold Executive Management Team

Experienced Operators Supported by a Committed and Proven Leadership Team

Executive Leadership

George Burns
President & CEO

- 30 years of experience in the mineral sector including executive, operations, development and engineering leadership roles in gold, copper and coal operations
- Prior to joining Eldorado, he was EVP & COO at Goldcorp
- Began his career with Anaconda Company in 1978

Joseph Dick
Executive VP & COO

- Over 35 years of mining experience, including executive, safe operations, projects, engineering and production support roles in gold, silver and base metal operations
- Prior to joining Eldorado, was SVP, Latin American Operations at Goldcorp

Philip Yee
Executive VP & CFO

- Extensive experience in the mining industry, financial management and reporting, financial and operational recovery, M&A, international risk management and strategy development
- Prior to joining Eldorado, was EVP & CFO at Kirkland Lake Gold

Jason Cho
Executive VP & CSO

- Over 25 years of mining and related industry experience, including engineering, investment banking and M&A, corporate finance and corporate development
- Previously with Merrill Lynch, TD Newcrest and UBS Securities in various capacities and AMEC PLC as a geotechnical engineer

Lisa Ower
Executive VP, People and External Affairs

- Over 25 years of extensive international experience in human resources, strategy, transformation, M&A, communications and stakeholder relations
- Prior to joining Eldorado, Lisa has held executive and senior leadership roles at Enerplus, Veresen, Talisman and Celestica

Board of Directors

Steven Reid
Chair of the Board

George Burns
President & CEO

Carissa Browning
Independent Director

Teresa Conway
Independent Director

Catherine Farrow
Independent Director

Pamela Gibson
Independent Director

Judith Mosely
Independent Director

Stephen Walker
Independent Director

John Webster

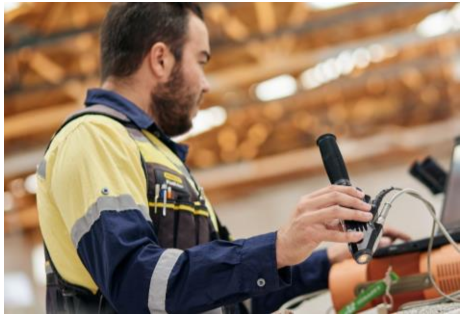
Olympias	40,898	65,000 - 75,000
Total	**325,462**	**460,000 - 490,000(1)**



(1) We maintain our original 2022 production guidance range and are tracking towards the lower end of the range.

2022 Cost and Capital Outlook

Low-cost operations and prudent capital program

Revised 2022 Consolidated Cost Outlook

	Original	% change from midpoint	Revised Guidance[2]
Cash Op Cost[1] C1 ($/oz sold)	640 - 690	+9%	**700 - 750**
Total Op Cost[1] C2 ($/oz sold)	720 - 770	+10%	**790 - 840**
AISC[1] ($/oz sold)	1,075 – 1,175	+9%	**1,180 – 1,280**

2022 Capital Outlook

	Sustaining Capital[1] ($M)	Growth Capital[1] ($M)
Kışladağ	14 – 19	72 – 77
Lamaque	55 – 60	11 – 16
Efemçukuru	15 – 20	0
Olympias	34 – 39	2 – 5
Total	**118 – 138**	**85 – 98**

2022 Other Project Spending Outlook

	Other Growth Capital[1] ($M)
Skouries	60 – 80
Perama Hill	0.5 – 1.0

Other items: 2022 Outlook for **General and Administrative** is $38M-$40M. 2022 Outlook for **Exploration & Evaluation** is $47M-$52M (57% expensed and 43% capitalized; includes $3M-$4M of Certej project spending). 2022 Outlook for Depreciation is $240M-$250M.

eldorado gold

(1) These are non-IFRS financial measures or ratios. See Slide 2 'Non-IFRS Measures' for more information. The most directly comparable IFRS measure to C1, C2, and AISC is Production costs. The most comparable IFRS measure to sustaining and growth capital is "Additions to property, plant and equipment". In 2021, on a consolidated basis, Additions to property, plant and equipment was $198.4M.

(2) On July 28, 2022, we increased our 2022 consolidated cost guidance ranges.

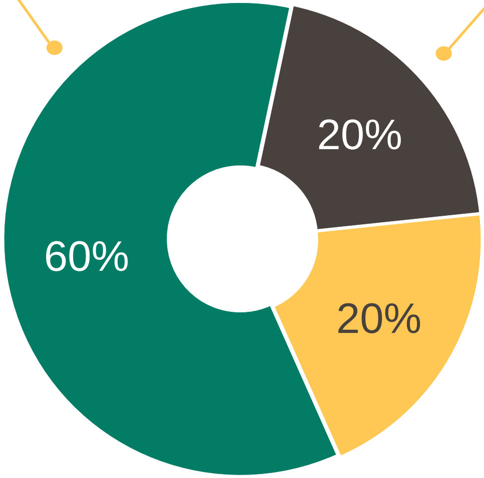
2021 Exploration Performance

2021 Exploration and evaluation spending was $27 million(1)
(54% expensed, 46% capitalized)

Canada

- ~98,500 metres drilled in 2021
- **Upper and Lower Triangle:** Underground and surface drilling tested extensions of C zones
- **Ormaque:** Maiden inferred mineral resource of 2.5M at 9.5 Au g/t for 803K oz of contained Au, announced Feb 2021
- Near-mine and district exploration programs focused on the Bruell, Lamaque and Bourlamaque projects, and early-stage drilling at the Herbin, Bevcon, Vein #6 and Sigma Nord targets

Country Spending Breakdown



Türkiye

- ~29,000 metres drilled in 2021
- **Efemçukuru:** Targeted ore shoots within the Kokarpinar and Kestane Beleni vein system
- Regional programs at the Bambal, Hod Maden North & Gencali projects

Greece

- 22,000 metres drilled
- **Olympias:** Targeted western extensions to the Flats ore zone.
- **Stratoni:** Surface drilling tested areas downdip and to the west of the current mining area.

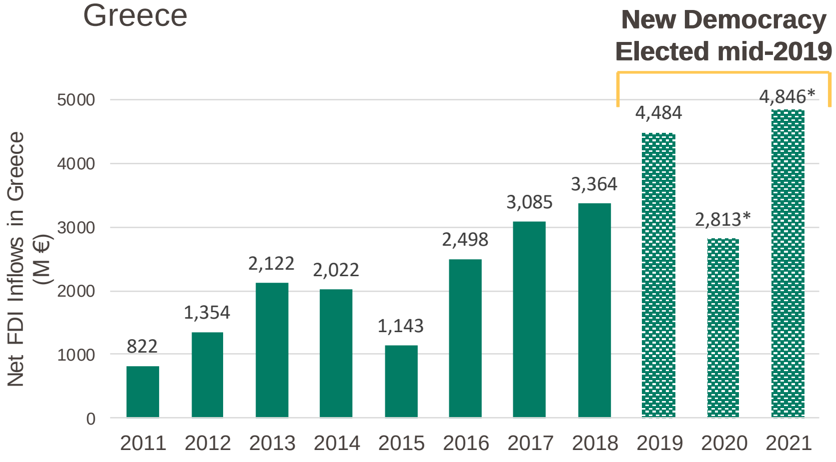
(1) Excludes Romania

Greece: Foreign Direct Investment

FDI into Greece is at a record high level under New Democracy Government

Net FDI Inflows in Greece

- Record levels of FDI inflows in Greece signal upward trajectory of Greek economy and successful effort in recent years to attract FDI into Greece



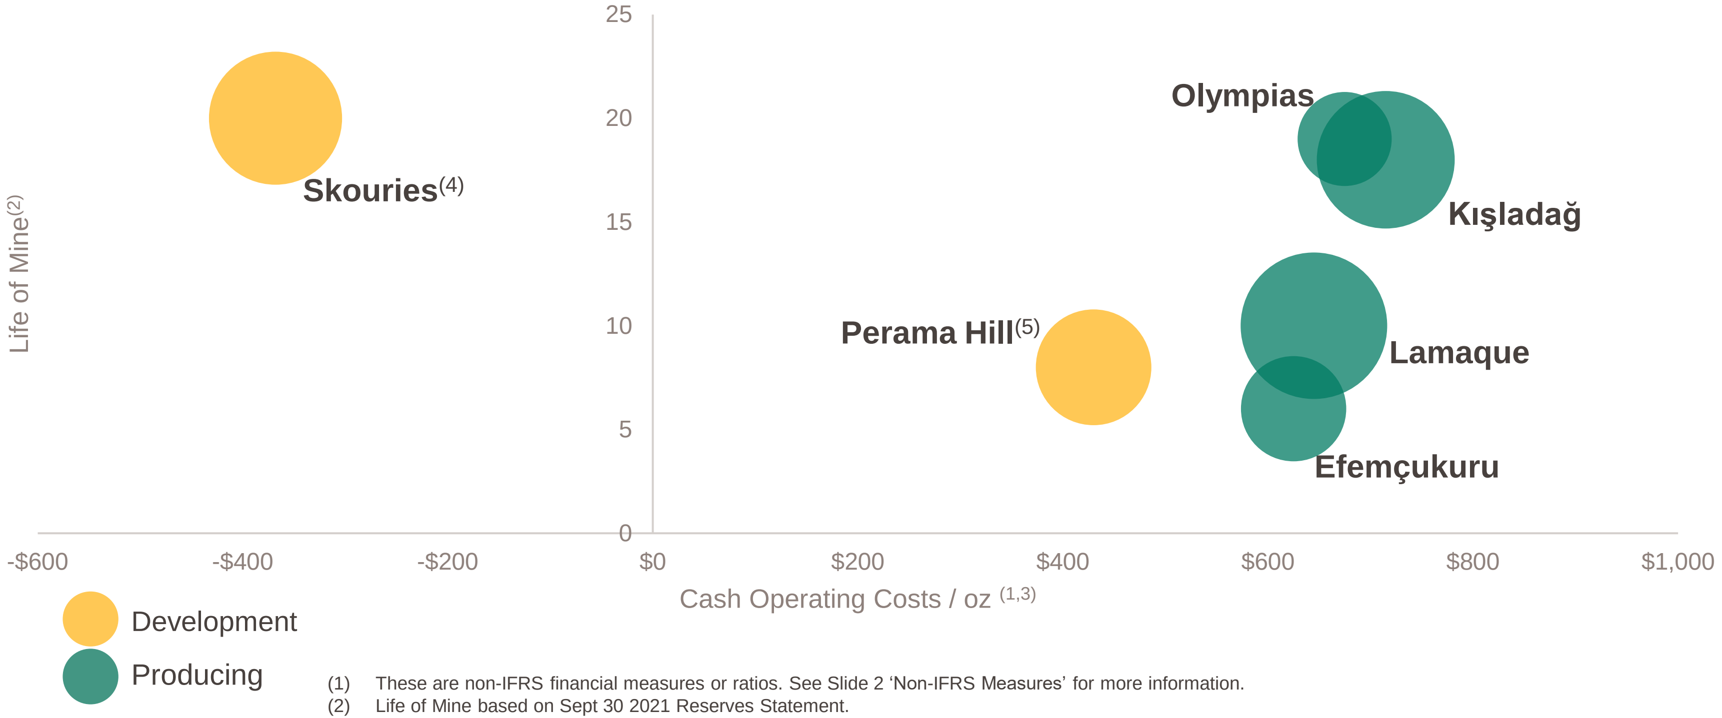
* Preliminary Data; Source: Bank of Greece

Recent Examples of FDI in Greece

- Lamda Development (former airport at Ellinikon) plans to invest €8 billion which is expected to be the largest private investment ever to be made in Greece
- Microsoft plans to invest €1 billion
- Italgas plans to invest €733 million
- Pfizer plans to invest €600 million
- Amazon Web Services plans to invest €150- €200 million

Growth Focused on Low-Cost, Long-Life Assets

Skouries and Perama Hill development projects are low-cost, long-life assets



(1) These are non-IFRS financial measures or ratios. See Slide 2 'Non-IFRS Measures' for more information.
(2) Life of Mine based on Sept 30 2021 Reserves Statement.
(3) Cash Operating Costs per ounce sold and Production based on 2022 guidance (mid-point), unless otherwise noted.
(4) Indicative operating data based on Skouries Technical Report filed March 31, 2022.
(5) Indicative operating data based on Perama Hill Technical Report filed January 2010.

eldorado gold

Retained Exposure to Tocantinzinho (TZ) Project

Eldorado divested the TZ project to G Mining Ventures in October 2021

Continued Exposure

- ~18% equity ownership of G Mining (post equity financing in [July 2022](LINK))
    - GMIN-TSXV market cap is ~C$339M (July 26, 2022)
- Deferred cash payment, to Eldorado, of $60M to be paid on the first anniversary of TZ commercial production
    - G Mining expects the first gold production in the 2nd half of 2024 with the first full year of production expected in 2025

TZ Feasibility Study(1) Highlights

- After-tax $NPV_{5\%}$ of $622 million and after-tax IRR of 24% at $1,600/oz gold price
- LOM of 10.5 years with average annual gold production of 174,700 ounces at AISC of $681/oz
- Initial capital cost $458 million

Source: G Mining Ventures
VRIFY: LINK

(1) G Mining Ventures published a Feasibility Study for the TZ Project on February 9, 2022 (LINK)

Sustainability Framework

Sustainability framework articulates four key commitments highlighting our commitment to ESG

Safe, Inclusive and Innovative Operations

- Focused on workforce health and safety engagement
- Mitigating risk by implementing dry-stack tailings
- Achievement of gender parity on the Board and committed to 30% female senior management by 2023

Engaged & Prosperous Communities

- Support for in-country community projects (US$2.6M) including critical infrastructure, access to education and health care
- Payments to in-country suppliers accounted for US$478M, or 84% of total supplier spending

Responsibly Produced Products

- Completed Year 2 external assurance and conformance with the World Gold Council' ("WGC") Responsible Gold Mining Principles
- Producer of conflict-free gold as per WGC's standard

Healthy Environments Now & The Future

- Development of an energy & carbon management system to identify opportunities for energy efficiency and GHG reductions
- Over 23 hectares of land reclaimed to its original state in 2021

Inclusive Diversity

Committed to fostering safe and inclusive workplaces that value diversity, personal growth and innovation

Global Initiatives

- Bias training among global leaders to mitigate bias in decision making
- IWiM & WIMBC Sponsors
- Participation in the Bloomberg Gender-Equality Survey
- Listening to the employees' voice: Inclusion survey conducted in 2021 with an 83% participation rate, and 78% favourable response for inclusion

Corporate Initiatives

- Robust Diversity Policy with aspirational targets at the Board & Senior Management Level
- Debiased recruitment practices, including blind recruitment techniques

Operating Sites

- **Greece:** Committed to Gender Equality in Greece through the recent Share Equality Label award
- **Québec**: Offers three schedules to create flexibility for workers with different personal situations and allows them to be home with their families every night
- **Türkiye: Breaking New Ground on Gender Equality**
  - Defying traditional gender stereotypes for certain roles in mining
  - Programs in place to support women entrepreneurs in rural development

eldorado gold

Climate Change Strategy

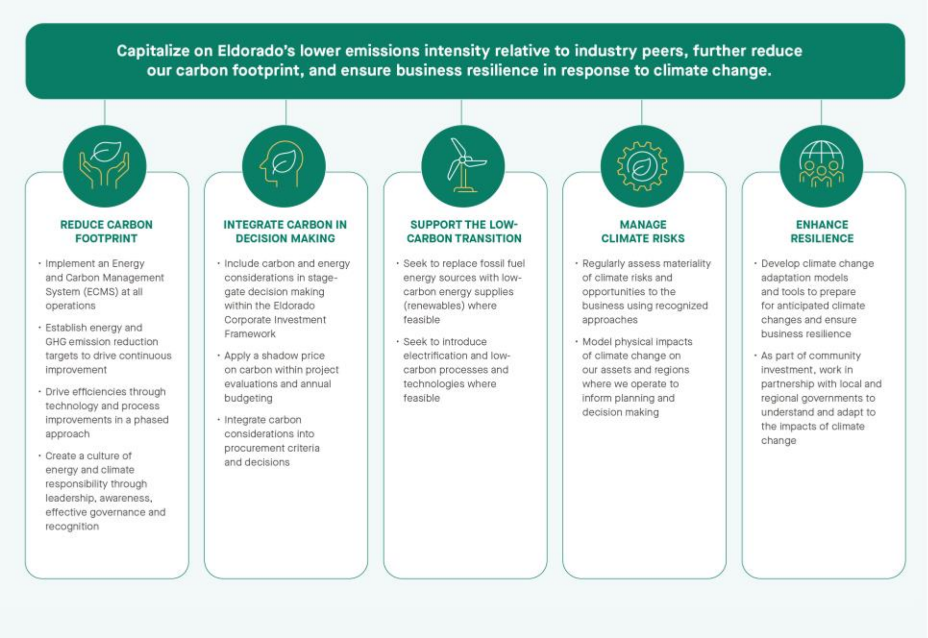
30% mitigation in GHG emissions by 2030, equivalent to removing approximately 65,000 tCO_2e(1)

GHG Emissions Mitigation Target

- Leverages Eldorado’s leading emissions intensity among peers
- Supports alignment with Eldorado’s SIMS, and commitments to the RGMPs, TSM and the TCFD
- Will be continually reassessed, pending further opportunities for energy use and GHG emissions reduction
  - Opportunities under investigation include access to cleaner energy and electricity, fleet decarbonization, and onsite renewable electricity generation

Did you know?

The Lamaque mine in Québec, is powered exclusively by low-emission hydroelectricity, which helps to make it among the lowest GHG intensity gold mines in the world.



Climate Change & GHG Emissions Report (LINK)

(1) tCO_2e refers to metric tonnes of carbon dioxide equivalent, a normalized and standard unit of measurement of GHG emissions; In a “business as usual” scenario, action is not taken to reduce emissions.

World Gold Council: Gold 247

WORLD GOLD COUNCIL

Gold 247

What is Gold 247?

The World Gold Council's strategic vision for **transforming the global gold market** and elevating gold into the mainstream of financial markets. The initiative will ultimately **enable greater participation, increase trust and unlock greater demand.**

Why now?

Gold has a systemic role in the world's economy – as an investment, a reserve asset, a source of employment and more. **The way gold is traded and supply chain management needs to modernise** so the industry continues to meet the expectations of all end-users and stakeholders.

Gold 247 Initiatives

Gold Bar Integrity Programme

- WGC/LBMA pilot
- Distributed ledger (blockchain) technology
- Foundation for a more accessible and fungible market

Accessible to all

- Enabling a digital transformation
- Removing barriers and establishing modern market infrastructure
- Essential to modernise and improve accessibility

Fully fungible

- Addresses barriers to trading gold across markets
- Intent is to establish a global standard
- In time, this will allow gold to be effectively traded as a digital asset

Notes on Mineral Resources and Reserves

1) Mineral resources and mineral reserves are as of September 30, 2021
2) The mineral resources and mineral reserves were classified using logic consistent with the CIM Definition Standards for Mineral Resources & Mineral Reserves (2014) incorporated, by reference, into National Instrument 43-101 – Standards of Disclosure for Mineral Projects (NI 43-101).
3) Mineral reserves are included in the mineral resources.
4) The mineral resources and mineral reserves are disclosed on a total project basis.

Mineral Reserve Notes:

1) Long Term Metal Price assumptions:
   Gold = $1300/oz; Silver = $17.00/oz; Copper = $2.75/lb; Pb price = $2,000/t and Zn price = $2,300/t.
2) Cut-off grades:
   Certej: 0.90 g/t Au Equivalent grade (=Au(g/t)+Ag(g/t)*0.0121); Efemcukuru: $95.90/t NSR (long hole stoping), $99.48/t NSR (drift and fill); Kisladag: 0.18 g/t Au Recoverable; Lamaque: 4.38 g/t Au; Olympias: $168.30/t NSR; Perama Hill: 0.73 g/t Au; Skouries: $10.60/t NSR (open pit), $33.33/t NSR (underground)

Qualified Persons:

John Battista, MAusIMM., of Mining Plus is responsible for Skouries (open pit) mineral reserves;
Terry Cadrin, P.Eng., Director, Business Planning and LOM Evaluations for the Company, is responsible for the Kisladag and Perama Hill mineral reserves;
Colm Keogh, P.Eng., Manager, Operations Support for the Company, is responsible for Efemcukuru, Olympias and Skouries (underground) mineral reserves;
John Nilsson, P.Eng., of Nilsson Mine Services, is responsible for the Certej mineral reserves;
Jessy Thelland, P. Geo., Superintendent, Technical Services for the Company, is responsible for Lamaque mineral reserves

Mineral Resource Notes:

Mineral Resource Reporting and demonstration of Reasonable Prospects for Eventual Economic Extraction:

The mineral resources used a long term look gold metal price of $1,800/oz for the determination of resource cut-off grades or values. This guided execution of the next step where constraining surfaces or volumes were created to control resource reporting. Open pit-only projects (Kisladag, Perama Hill, Perama South, and Certej) used pit shells created with the long-term gold price to constrain reportable model blocks. Underground resources were constrained by 3D volumes whose design was guided by the reporting cut-off grade or value, contiguous areas of mineralization and mineability. Only material internal to these volumes were eligible for reporting. Projects with both open pit and underground resources have the open pit resources constrained by either the permit (Skouries) or by an OP/UG economic crossover surface, and underground resources constrained by a reporting shape.

1) Cut-off grades:
   Certej: 0.60 g/t Au; Efemcukuru: 2.5 g/t Au; Kisladag: 0.25 g/t Au; Lamaque: 3.0 g/t Au; Ormaque: 3.5 g/t Au; Olympias: $125/t NSR; Perama Hill and Perama South: 0.50 g/t Au; Piavitsa: 4.0 g/t Au; Sapes: 2.5 g/t Au (underground), 1.0 g/t Au (open pit); Skouries: 0.30 g/t Au Equivalent grade (open pit), 0.70 g./t Au Equivalent grade (underground) (=Au g/t + 1.25*Cu%); Stratoni: $200/t NSR
2) Qualified Persons:
   Sean McKinley, P.Geo., Manager, Mine Geology & Reconciliation for the Company, is responsible for the Certej, Perama Hill, Perama South, Piavitsa, Sapes and Skouries mineral resources; and is jointly responsible for Ormaque mineral resources with Jacques Simoneau, P.Geo.;
   Jacques Simoneau, P.Geo., Exploration Manager Eastern Canada for the Company, is jointly responsible for Ormaque mineral resources with Sean McKinley, P.Geo.;
   Jessy Thelland, P.Geo., Superintendent, Technical Services for the Company, is responsible for Lamaque mineral resources;
   Ertan Uludag, P.Geo., Manager, Resource Geology for the Company, is responsible for the Efemcukuru, Kisladag, Olympias and Stratoni mineral resources.

Qualified Person:

Simon Hille, FAusIMM, Senior Vice President, Technical Services, is the Qualified Person under NI 43-101 responsible for preparing and supervising the preparation of the scientific or technical information contained in this presentation.

Thank You
