

Investor Presentation

February 2023

Forward Looking Statements

Definitions

Capitalized terms used in this presentation but not otherwise defined herein have the meanings ascribed thereto in the Management's Discussion and Analysis dated February 23, 2023 of Eldorado Gold Corporation for the three months and twelve months ended December 31, 2022 (the "MD&A").

Reporting Currency

All amounts are presented in U.S. dollars ("\$\$") unless otherwise stated.

Cautionary Note about Forward-looking Statements and Information

Certain of the statements made and information provided in this presentation are forward-looking statements or information within the meaning of the United States Private Securities Litigation Reform Act of 1995 and applicable Canadian securities laws. Often, these forward-looking statements and forward-looking information can be identified by the use of words such as "advance", "anticipates", "assumes", "believes", "budget", "committed", "continue", "estimates", "expects", "focus", "forecasts", "foresee", "future", "goal", "guidance", "intends", "opportunity", "outlook", "plans", "potential", "prospective", "schedule", "signal", "strive", "target", "underway" or "upcoming" or the negatives thereof or variations of such words and phrases or statements that certain actions, events or results "can", "could", "likely", "may", "might", "should", "will" or "would" be taken, occur or be achieved.

Forward-looking statements or information contained in this presentation include, but are not limited to, statements or information with respect to: the duration, extent and other implications of production challenges and cost increases, including those in respect of COVID-19, the Russia-Ukraine war and restrictions and suspensions with respect to the Company's operations; the Company's 2023 annual production and cost guidance, including our individual mine production; the Company's five year production outlook, including our individual mine production; the timing of production; the timing of resource conversion drilling; the total funding requirements for Skouries, including the sources thereof; the drawdown of the proceeds of the Term Facility, including the timing and interest rate thereof; the Company's ability to fund the remaining 20% funding commitment for Skouries; the Company's ability to successfully advance the Skouries project and achieve the results provided for in the Skouries feasibility study; forecasted NPV, IRR, EBITDA, and AISC; expectations regarding advancement and development of the Skouries project, including the ability to meet expectations and the timing thereof; the optimization and development of Greek operations, including benefits, risks, financing and the Amended Investment Agreement related thereto; planned investments in Greece by other entities; the completion, availability and benefits of processing facilities and transportation equipment; government approvals; government measures relating to cost increases; alternative markets for concentrate shipments; changes in law and tax rates; completion and timing of, and consideration expected to be received in, the sale of the Certje project; deferred consideration expected to be received in the sale of the Tocantinzinho project; the timing of production by GMIN of the Tocantinzinho project; flowthrough financings and the use of proceeds therefrom; sustainability and GHG targets; changes in internal controls over financial reporting; critical accounting estimates and judgements; changes in accounting policies; expected metallurgical recoveries and improved concentrate grade and quality; re-rating potential; non-IFRS financial measures and ratios; risk factors affecting our business; our expectation as to our future financial and operating performance, including future cash flow, estimated cash costs, expected metallurgical recoveries and gold price outlook; and our strategy, plans and goals, including our proposed exploration, development, construction, permitting and operating plans and priorities, related timelines and schedules. Forward-looking statements and forward-looking information by their nature are based on assumptions and involve known and unknown risks, uncertainties and other factors, which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements or information.

We have made certain assumptions about the forward-looking statements and information, including assumptions about: production and cost expectations; the total funding required to complete Skouries; our ability to meet our timing objectives for first drawdown of the Term Facility; our ability to execute our plans relating to Skouries, including the timing thereof; our ability to obtain all required approvals and permits; cost estimates in respect of Skouries; no changes in input costs, exchange rates, development and gold; the geopolitical, economic, permitting and legal climate that we operate in, including at the Skouries project; timely satisfaction of the conditions precedent to closing the sale of the Certje project; our preliminary gold production and our guidance, benefits of the completion of the decline at Lamaque, the improvements at Kisladag and the optimization of Greek operations; tax expenses in Türkiye; how the world-wide economic and social impact of COVID-19 is managed and the duration and extent of the COVID-19 pandemic; timing, cost and results of our construction and exploration; the geopolitical, economic, permitting and legal climate that we operate in; the future price of gold and other commodities; the global concentrate market; exchange rates; anticipated values, costs, expenses and working capital requirements; production and metallurgical recoveries; mineral reserves and resources; the commitment of other entities to make planned investments in Greece; and the impact of acquisitions, dispositions, suspensions or delays on our business and the ability to achieve our goals. In addition, except where otherwise stated, we have assumed a continuation of existing business operations on substantially the same basis as exists at the time of this presentation.

Even though our management believes that the assumptions made and the expectations represented by such statements or information are reasonable, there can be no assurance that the forward-looking statement or information will prove to be accurate. Many assumptions may be difficult to predict and are beyond our control. Furthermore, should one or more of the risks, uncertainties or other factors materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described in forward-looking statements or information. These risks, uncertainties and other factors include, among others, the following: the outcome of planned technical studies, production and exploration, development, optimization and expansion plans at the Company's projects; possible variations in ore grade or recovery rates; changes in mineral resources and mineral reserves; costs and timing of the development of new deposits; success of exploration activities; increases in financing costs or adverse changes to the Term Facility; failure or delays to receive necessary approvals or otherwise satisfy the conditions to the drawdown of the Term Facility; the proceeds of the Term Facility not being available to the Company or Hellas; ability to execute on plans relating to Skouries, including the timing thereof, ability to achieve the social impacts and benefits contemplated; ability to meet production, expenditure and cost guidance; inability to achieve the expected benefits of the completion of the decline at Lamaque, the improvements at Kisladag and the optimization of Greek operations; inability to assess income tax expenses in Türkiye; risks relating to the ongoing COVID-19 pandemic and any future pandemic, epidemic, endemic or similar public health threats; timing and cost of construction, and the associated benefits; ability to achieve expected benefits from improvements, recoveries of gold and other metals; risks relating to our operations being located in foreign jurisdictions; community relations and social license; climate change; liquidity and financing risks; indebtedness, including current and future operating restrictions, implications of a change of control, ability to meet debt service obligations, the implications of defaulting on obligations and change in credit ratings; environmental matters; waste disposal; the global economic environment; government regulation; reliance on a limited number of smelters and off-takers; commodity price risk; mineral tenure; permits; risks relating to environmental sustainability and governance practices and performance; non-governmental organizations; corruption, bribery and sanctions; litigation and contracts; information technology systems; estimation of mineral reserves and mineral resources; production and processing estimates; credit risk; actions of activist shareholders; price volatility, volume fluctuations and dilution risk in respect of our shares; reliance on infrastructure, commodities and consumables; currency risk; inflation risk; interest rate risk; tax matters; dividends; financial reporting, including relating to the carrying value of our assets and changes in reporting standards; labour, including relating to employee/union relations, employee misconduct, key personnel, skilled workforce, expatriates and contractors; reclamation and long-term obligations; regulated substances; necessary equipment; co-ownership of our properties; acquisitions, including integration risks, and dispositions; the unavailability of insurance; conflicts of interest; compliance with privacy legislation; reputational issues; competition, as well as those risk factors discussed in the sections titled "Forward-looking information and risks" and "Risk factors in our business" in our most recent Annual Information Form & Form 40-F. The reader is directed to carefully review the detailed risk discussion in our most recent Annual Information Form & Form 40-F filed on SEDAR and EDGAR under our Company name, which discussion is incorporated by reference in this presentation, for a fuller understanding of the risks and uncertainties that affect our business and operations.

The inclusion of forward-looking statements and information is designed to help you understand management's current views of our near- and longer-term prospects, and it may not be appropriate for other purposes.

There can be no assurance that forward-looking statements or information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, you should not place undue reliance on the forward-looking statements or information contained herein. Except as required by law, we do not expect to update forward-looking statements and information continually as conditions change and you are referred to the full discussion of the Company's business contained in the Company's reports filed with the securities regulatory authorities in Canada and the United States.

This presentation contains information that may constitute future-oriented financial information or financial outlook information (collectively, "FOFI") about Eldorado's prospective financial performance, financial position or cash flows, all of which is subject to the same assumptions, risk factors, limitations and qualifications as set forth above. Readers are cautioned that the assumptions used in the preparation of such information, although considered reasonable at the time of preparation, may prove to be imprecise or inaccurate and, as such, undue reliance should not be placed on FOFI. Eldorado's actual results, performance and achievements could differ materially from those expressed in, or implied by, FOFI. Eldorado has included FOFI in order to provide readers with a more complete perspective on Eldorado's future operations and management's current expectations relating to Eldorado's future performance. Readers are cautioned that such information may not be appropriate for other purposes. FOFI contained herein was made as of the date of the MD&A. Unless required by applicable laws, Eldorado does not undertake any obligation to publicly update or revise any FOFI statements, whether as a result of new information, future events or otherwise.

Cautionary Note to US Investors Concerning Estimates of Measured, Indicated and Inferred Resources

Technical discussion regarding the Company's properties included herein has been prepared in accordance with the requirements of the securities laws in effect in Canada, which differ from the requirements of United States securities laws. The terms "mineral reserve", "proven mineral reserve", "probable mineral reserve", "mineral resource", "measured mineral resource", "indicated mineral resource" and "inferred mineral resource" are Canadian mining terms as defined in accordance with National Instrument 43-101 – *Standards of Disclosure for Mineral Projects* ("NI 43-101"). NI 43-101 is a rule developed by the Canadian Securities Administrators that establishes standards for all public disclosure an issuer makes of scientific and technical information concerning mineral projects. These standards differ from the requirements of the United States Securities and Exchange Commission (the "SEC") applicable to domestic United States reporting companies. Accordingly, information contained herein contains descriptions of our mineral deposits that may not be comparable to similar information made public by United States companies subject to the SEC's reporting and disclosure requirements.

Qualified Person

Except as otherwise noted, scientific and technical information contained in this presentation was reviewed and approved by Simon Hille, FAusIMM, Senior Vice President, Technical Services and Operations for Eldorado Gold Corporation, who is the "qualified person" under NI 43-101 responsible for preparing and supervising the preparation of the scientific or technical information contained in this presentation and verifying the technical data disclosed in this presentation relating to our operating mines and development projects. Mineral resources that are not mineral reserves do not have demonstrated economic viability. Inferred mineral resources are considered too speculative geologically to have the economic considerations applied to them that would enable them to be categorized as mineral reserves. Jacques Simoneau, P.Geo a member in good standing of the Ordre des Géologues du Québec, is the qualified person as defined in NI 43-101 responsible for, and has verified and approved, the scientific and technical disclosure contained in this presentation for the Quebec projects.

Non-IFRS Measures

Cautionary Note about Non-IFRS Measures

Certain non-IFRS financial measures and ratios are included in this presentation, including average realized gold price per ounce sold, cash operating costs and cash operating costs per ounce sold, total cash costs and total cash costs per ounce sold, all-in sustaining costs ("AISC") and AISC per ounce sold, adjusted net earnings/(loss) attributable to shareholders, adjusted net earnings/(loss) per share attributable to shareholders, working capital and cash flow from operating activities before changes in working capital, earnings before interest, taxes and depreciation and amortization ("EBITDA"), EBITDA margin, and adjusted earnings before interest, taxes and depreciation and amortization ("Adjusted EBITDA"), free cash flow and sustaining and growth capital expenditures.

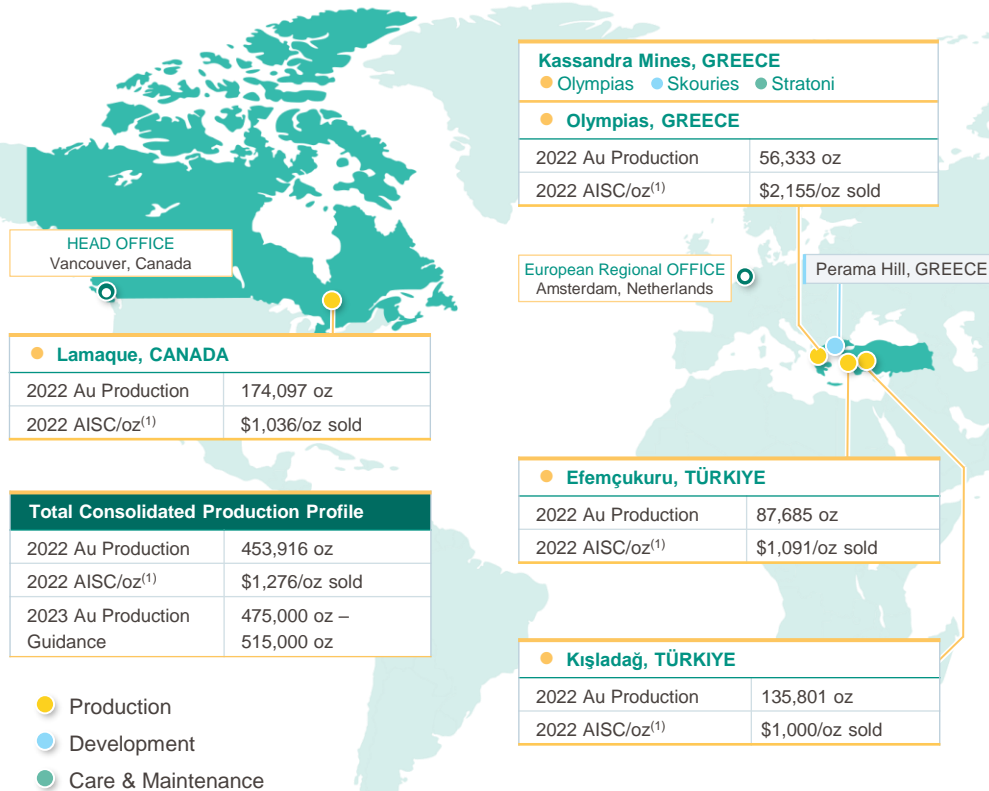

The Company believes that these measures and ratios, in addition to conventional measures and ratios prepared in accordance with International Financial Reporting Standards ("IFRS"), provide investors an improved ability to evaluate the underlying performance of the Company. The non-IFRS and other non-financial measures and ratios are intended to provide additional information and should not be considered in isolation or as a substitute for measures or ratios of performance prepared in accordance with IFRS. These measures and ratios do not have any standardized meaning prescribed under IFRS, and therefore may not be comparable to other issuers.

Certain additional disclosures for these non-IFRS measures, including quantitative reconciliations to the most directly comparable IFRS financial measures, are incorporated by reference herein and can be found in the section 'Non-IFRS and Other Financial Measures and Ratios' starting at page 31 in the Company's December 31, 2022 MD&A available on SEDAR at www.sedar.com and on the Company's website under the 'Investors' section.

The most directly comparable IFRS financial measures and results from the year ended December 31, 2022 are below.

Non-IFRS Measure	Most Directly Comparable IFRS Measure	2022
Cash operating costs (C1)	Production costs	\$459.6 M
Total cash costs (C2)		
AISC		
Average realized gold price per ounce sold	Revenue	\$872.0 M
EBITDA	Earnings (loss) from continuing operations before income tax	\$11.9 M
Adjusted EBITDA		
Adjusted net earnings/(loss)		
Adjusted net earnings/(loss) per share	Net earnings (loss) attributable to shareholders of the Company from continuing operations	(\$49.2) M
Cash flow from operations before changes in non-cash working capital	Net cash generated from operating activities of continuing operations	\$211.2 M
Free cash flow		
Sustaining capital expenditures		
Growth capital expenditures	Additions to property, plant and equipment during the period	\$305.8 M

Diversified Portfolio of Long-Life, High-Quality Assets

Diverse Asset Portfolio

- Operations in Türkiye, Greece and Canada
- 12.3Moz of P&P gold reserves⁽²⁾

Production Growth

- Annual production expected to increase to 675,000 – 735,000 ozs in 2027

Pipeline of Strategic Growth Projects

- Development projects: Skouries, Perama Hill
- Commercial production at Skouries expected by end of 2025

Strong Investment Rationale

Eldorado is driving investor returns by focusing on four key areas

Pipeline of Strategic Growth Projects

- **Skouries:** Transition into execution phase in Q1 2023. ~140kcozs annual gold production, with commercial production expected at end of 2025
- **Kışladağ:** Increase throughput and recovery
- **Lamaque:** Exploration upside from nearby targets

Attractive Valuation

- Eldorado trades at 0.5x P/NAV versus peers at 0.7x P/NAV⁽¹⁾
- Advancing high-quality Greek assets creates re-rating potential

Focused on ESG

- Strong ESG performance as a mid-cap miner
- Diversity/inclusion, adherence to WGC Conflict Free Gold Standards, best practices for tailings management

Financial Position

- Cash, cash equivalents, and term deposits of \$315M as of December 31, 2022
- Continue to focus on maintaining a solid financial position which provides flexibility to unlock value across our business

Recent Achievements and Upcoming Value Drivers

Successfully delivered 2022 catalysts; Focused on upcoming value drivers

Recent Achievements

- **Türkiye:**
 - Agglomeration optimization at Kışladağ, including installation of larger conveyors in Q4 2022 to improve material handling and throughput rates
 - Efemçukuru met annual production guidance for 9th consecutive year
- **Québec:**
 - Completion of Triangle decline and exploration drift; Started Ormaque resource conversion drilling
 - Updated Lamaque Technical Study
- **Greece:**
 - €680 million financing package secured for the development of Skouries, including conditional Board approval for the full re-start of construction at Skouries

Upcoming Value Drivers

- **Türkiye:**
 - Kışladağ opportunity to increase throughput and recoveries
 - Installation and commissioning of an agglomeration drum expected in H1 2023
 - Resource conversion of Kokarpinar & Bati at Efemçukuru
- **Québec:**
 - Resource conversion drilling of upper two-thirds Ormaque deposit
- **Greece:**
 - Continued productivity improvements at Olympias following positive progress in 2021-2022. Potential expansion to 650ktpa
- **Corporate/Other:**
 - Closing of Certaj divestment (non-core Romanian asset), which is consistent with the Company's strategy of focusing on core jurisdictions in its portfolio

Skouries Financing Summary

Maximizing shareholder value with well-aligned strategic partnerships

Term Facility Components

Greek Banks National Bank of Greece & Piraeus Bank	€480 million
Recovery and Resilience Facility (RRF) loan provided by the EU via the Greek State	€100 million
Bridge loan, expected to be replaced by a further RRF loan in 2023	€100 million
Total Project Financing Facility	€680 million

Key Features of Term Facility

- **Non-recourse to Eldorado**; secured by Hellas Gold
- **Blended interest rate** of approximately 5%⁽¹⁾
- **10-year term**: 3 years availability; 7 years repayment
- Financing includes additional cost overrun facility of up to 10% of capital costs
- Expected **initial drawdown of funds in Q1 2023**, subject to customary closing conditions

Project funding requirement is expected to be fully addressed.

Skouries Capital Cost Breakdown

Well-positioned to reach commercial production on schedule and on budget

Capital Cost Breakdown (US\$M)

- ~20% for Waste and Water Management Facilities⁽¹⁾
- ~50% for Process Plant & Infrastructure (Including Dry Stack Tailings) ⁽¹⁾

Capital Cost Estimate

- The **project is half-built** with major processing equipment already purchased and installed, and meaningful progress on early-works activities in 2022
- In Q2-22, a \$17M **purchase order was executed** for the **filter press, a long-lead critical path item**, in line with cost and delivery scheduled from the Feasibility Study ("FS") estimate
- Approximately **half of the capital cost estimate is related to labour**. The local area has a history of mining and there is a ready pool of labour.
- **Commodity & input price assumptions** including copper, steel and cement, **remain in line with the FS assumptions**

Skouries: Transformational for Eldorado

Skouries Production Profile⁽¹⁾

Skouries Annual Cash Flow⁽²⁾

■ Base Case ■ Incremental @ Spot

Skouries Project Estimates⁽¹⁾

- **Robust economics⁽¹⁾**
 - **Base case⁽²⁾:** NPV_{5%} \$1.3B; after-tax IRR 19%
 - **Spot price⁽²⁾:** NPV_{5%} \$1.6B; after-tax IRR 22%
- **Average annual gold production:** 140koz
- **Average annual copper production:** 67M lbs
- **Cash operating costs⁽³⁾:** negative \$365/oz sold
- **All-in Sustaining costs⁽³⁾:** negative \$6/oz sold
- **Free cash flow⁽³⁾:** on average, \$215 million per year, for the first 5-years

Successful Growth at Lamaque

Delivered on acquisition with demonstrated growth; Significant upside potential

Strong track record of success since acquisition

Achieved Commercial Production

- Reached commercial production less than 2 years after the Integra acquisition

Resource and Reserve Growth

- Maiden reserve announced 8 months post acquisition; continue to replace reserves year-over-year with additional growth
- Doubling of gold resources since acquisition through exploration

Exceeded PFS Production Metrics

- Lamaque has exceeded 2018 Prefeasibility Study ("PFS") metrics in terms of tonnage and gold production
- Lamaque 2022 gold production was 175koz, almost 30% higher than peak production of 135koz based on the 2018 PFS

Updated Technical Study with significant upside potential⁽¹⁾

Positioned Well in Abitibi Region

- Expanded land package in the Val-d'Or region by 550% with QMX acquisition
- Acquired large prospective land packages in Matagami, Kirkland Lake areas

Continued positive impact for local stakeholders

Sustainable Focus

Recently completed Lamaque decline project is expected to result in:

- Eliminating 26 km surface haulage and rehandling on public roads; reducing GHG emissions
- Increasing energy efficiency
- Reducing ambient noise & surface dust
- Improving overall sustainability

Operating Mine Fully Permitted

- Upper Triangle Reserves case is fully permitted under Federal and Provincial regulations
- Expect that any permitting amendments can be obtained as required for future growth

5-Year Operating Outlook Includes Skouries

Production (midpoint) increasing by over 55% over the 5-year period driven by organic growth projects and expected commercial production from Skouries

2023 Production Guidance Ranges (oz)

Kışladağ	160,000 – 170,000
Lamaque	170,000 – 180,000
Efemçukuru	80,000 – 90,000
Olympias	60,000 – 75,000
Total ⁽³⁾	475,000 – 515,000

2023 Cost and Capital Outlook

Costs outlook reflects market conditions; Capital focused on re-investing in growth opportunities

2023 Cost Outlook

	Cash Op Cost ⁽¹⁾ C1 (\$/oz sold)	Total Cash Cost ⁽¹⁾ C2 (\$/oz sold)	AISC ⁽¹⁾ (\$/oz sold)
Kışladağ	750 – 850	850 – 950	-
Lamaque	670 – 770	700 - 800	-
Efemçukuru	790 – 890	920 – 1,020	-
Olympias	980 – 1,080	1,130 – 1,230	-
Total	760 – 860	860 – 960	1,190 – 1,290

2023 Capital Outlook

	Sustaining Capital ⁽¹⁾ (\$M)	Growth Capital ⁽¹⁾ (\$M)
Kışladağ	14 – 19	110 – 120
Lamaque	60 – 70	37 – 42
Efemçukuru	10 – 15	4 – 8
Olympias	30 – 35	3 – 7
Total	114 – 139	154 – 177

2023 Other Growth Capital Spending Outlook⁽¹⁾ (\$M)

Skouries	240 – 260
-----------------	-----------

2023 Other Items Outlook (\$M)

G&A	35 – 38
Exploration & Evaluation⁽²⁾	28 – 31
Depreciation	272 - 282

Attractive Valuation

Eldorado has an attractive valuation compared to peers
Advancing high-quality Greek assets creates re-rating potential

Consensus P/NAV

Source: FactSet; data as of Feb 22, 2023

Consensus EV/2023E EBITDA⁽¹⁾

Source: FactSet; data as of Feb 22, 2023

(1) These are non-IFRS financial measures or ratios. See Slide 2 'Non-IFRS Measures' for more information.

ESG is a Key Priority

Peer comparison shows Eldorado as a strong ESG performer in the mid-cap mining sector

ESG actions are recognized globally

Eldorado's *Sustainability Integrated Management System* incorporates global standards including the Responsible Gold Mining Principles and *Towards Sustainable Mining*

1 = highest; 10 = lowest

**GOVERNANCE
QUALITYSCORE**
HIGHEST RANKED BY ISS ESG

a Morningstar company

1 = highest; 100 = lowest

100 = Poor

ELD Score

Score = 21

(Top 7% of Peer Group)

Leading the way in ESG areas

- The Board exceeds our diversity target of having at least 30% female directors by 2022 and exceeds the other designated groups⁽¹⁾ target of 10%
- Lamaque is a leader in low-carbon gold mining
- Industry-leading tailings management (dry stack tailings)

Journey to Decarbonization

- Climate Change and Greenhouse Gas (“GHG”) Emissions target:
 - Mitigating GHG emissions by 30%, from 2020 levels, by 2030 on a ‘business as usual’ basis, which equates to removing approximately 65,000 tonnes of carbon dioxide equivalent by 2030

Financial Position

Focus on maintaining solid financial position

Liquidity Position^(1,2) (as of December 31, 2022)

Financial Position

- Cash position⁽¹⁾ of \$314.7 million at Dec. 31, 2022
- In October 2021, Eldorado entered into a \$250 million amended and restated senior secured credit facility (“Fourth ARCA”) with an option to increase the available credit by \$100 million through an accordion feature, and with a maturity date of October 15, 2025
- In August 2021, Eldorado completed an offering of \$500 million senior unsecured notes with a coupon rate of 6.25% due September 1, 2029
 - Senior Notes lower the cost of debt and allows Eldorado to pursue a broader range of funding alternatives for the development of Kassandra assets in Greece
- We continue to focus on maintaining a solid financial position which should provide flexibility to unlock value across our business

Operating Results

Sequential quarter-over-quarter improvements throughout 2022
Eldorado achieved AISC guidance but missed on C1 cost and production guidance in 2022

	Q4 2022			2022			2021		
Asset	Production (oz)	C1 Cost ⁽¹⁾ (\$/oz)	AISC ⁽¹⁾ (\$/oz)	Production (oz)	C1 Cost ⁽¹⁾ (\$/oz)	AISC ⁽¹⁾ (\$/oz)	Production (oz)	C1 Cost ⁽¹⁾ (\$/oz)	AISC ⁽¹⁾ (\$/oz)
Kışladağ	40,307	709	884	135,801	773	1,000	174,365	583	797
Lamaque	51,349	541	925	174,097	642	1,036	153,201	616	1,017
Efemçukuru	21,362	738	1,138	87,685	701	1,091	92,707	551	901
Olympias	15,435	1,325	1,998	56,333	1,409	2,155	55,577	930	1,715
Total	128,453	741	1,246	453,916	788	1,276	475,850	626	1,068
2022 Guidance ⁽²⁾				460,000 – 490,000	700 – 750	1,180 – 1,280			

2023 Exploration Strategy

**2023 Exploration guidance is \$35 million to \$41 million⁽¹⁾
(57% expensed, 43% capitalized)**

Eastern Canada Exploration in 2023

Focus on brownfields opportunities within the Lamaque / Bourlamaque properties

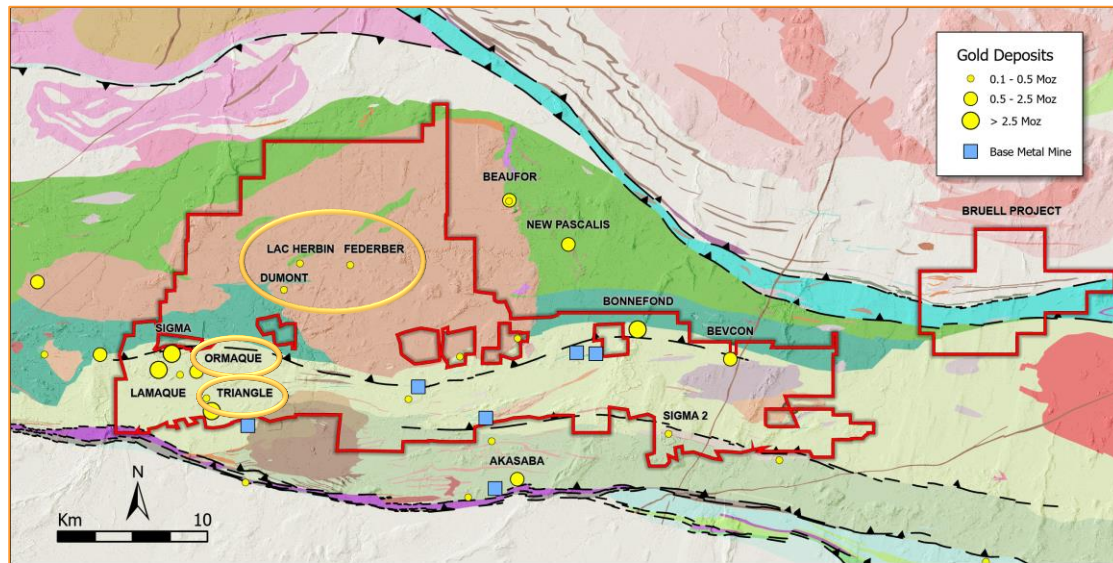

Advanced Targets

- **Ormaque:** Resource conversion and expansion. Testing extensions to east and at depth
- **Lower Triangle:** Resource conversion of C6, C7
- **Herbin Area:** Testing along-strike targets of historically mined areas

New Targets

- Fieldwork and 44,000m drilling planned at early-stage projects within expanded license area
- Fieldwork on optioned properties in Kirkland Lake Belt and Bruell

Türkiye Exploration in 2023

Opportunities to extend life of mine at Efemçukuru through conversion of high-grade inferred resources and testing new targets

Efemçukuru

- ~13,000m resource conversion / expansion drilling planned at Kokarpinar and Bati
- **West Veins:** Over 3 km strike length of untested veins with numerous high-grade surface samples

Türkiye Regional Projects

- Target generation fieldwork and 14,000m drill testing at early-stage greenfields projects

Operating Jurisdictions

History of operating in key jurisdictions

Türkiye

- 2021 Investment Attractiveness⁽²⁾: **Türkiye: 52.15/100**
- Operating in Türkiye since 2006
- Demonstrated history of 15+ years of permitting success and strong community relations

Source: Turkish Central Bank, company reports

(1) These are non-IFRS financial measures or ratios. See Slide 2 'Non-IFRS Measures' for more information.
 (2) Ranked by Fraser Institute. Source: www.fraserinstitute.org/sites/default/files/annual-survey-of-mining-companies-2021.pdf
 (3) The 2021 Fraser Institute questionnaire included a number of jurisdictions that had insufficient responses to enable them to be included in the report.
 (4) Please refer to the Appendix for more information with respect to the mineral resources and mineral reserves.

Canada

- 2021 Investment Attractiveness⁽²⁾: **Québec: 83.12/100**
- 5.5+ year Reserve life with potential from large Inferred resource⁽⁴⁾
- Steady production profile, large resource base and exploration upside from nearby targets

Greece

- 2021 Investment Attractiveness⁽²⁾: **Greece: N/A⁽³⁾**
- Amended Investment Agreement with Hellenic Republic in Q1 2021
 - Provides investor protection mechanisms including a permitting framework similar to other large-scale foreign investment agreements in Greece

Operations - Overview

Diversified production base with balanced growth profile of both organic and development projects

Kışladağ

Kışladağ is a low-grade, bulk-tonnage, open pit operation that uses heap leaching for gold recovery

OVERVIEW

Location	Uşak Province, Türkiye
Ownership	100%
Mine type	Open pit, heap leach
Metals mined	Gold
Deposit type	Gold porphyry
Processing method	Heap leach
Life of mine	15 years based on Reserves
2022 Results	135,801 ozs produced at \$1,000/oz AISC ⁽¹⁾ and C1 Cost ⁽¹⁾ of \$773/oz sold
2023 Guidance	Production: 160,000 – 170,000 ozs Cash Operating Cost (C1) ⁽¹⁾ : \$750-\$850/oz sold

RESERVES AND RESOURCES ⁽²⁾

	Tonnes (x1000)	Grade (g/t Au)	Contained Ounces (x1000 Au)
P&P Reserves	186,006	0.68	4,069
M&I Resources	344,478	0.60	6,603
Inferred Resources	7,529	0.44	107

Enhancing Efficiencies

- Kışladağ opportunity to increase throughput and recoveries beyond planned 56%
- Installation and commissioning of an agglomeration drum expected in H1 2023
- Pre-stripping campaign on track

Efemçukuru

High-grade underground operation located in Izmir Province in western Türkiye

OVERVIEW

Location	Izmir Province, Türkiye
Ownership	100%
Mine type	Underground
Metals mined	Gold
Processing method	Flotation circuit to produce gold concentrate
Deposit type	Epithermal gold
Life of mine	6 years based on Reserves
2022 Results	87,685 ozs produced at \$1,091/oz AISC ⁽¹⁾ and C1 Cost ⁽¹⁾ of \$701/oz sold
2023 Guidance	Production: 80,000 – 90,000 ozs Cash Operating Cost (C1) ⁽¹⁾ : \$790-\$890/oz sold

RESERVES AND RESOURCES ⁽²⁾

	Tonnes (x1000)	Grade (g/t Au)	Contained Ounces (x1000 Au)
P&P Reserves	3,184	5.30	542
M&I Resources	4,699	7.07	1,069
Inferred Resources	2,677	5.01	431

Maintain low-cost production

- Efemçukuru focused on continuous improvement to sustain low-cost production
- Achieved production guidance since 2014

Lamaque

Underground gold mine located in Val-d'Or, Québec. The high-grade orogenic Triangle deposit feeds the current mine life.

OVERVIEW

Location	Québec, Canada
Ownership	100%
Mine type	Underground
Metals mined	Gold
Processing method	Milling circuit followed by a leach and CIP circuit
Deposit type	Orogenic gold veins
Life of mine	~5 yrs Upper Triangle based on Reserves ~8 yrs Lower Triangle and Ormaque based on Resources
2022 Results	174,097 ozs produced at \$1,036/oz AISC ⁽¹⁾ and C1 Cost ⁽¹⁾ of \$642/oz sold
2023 Guidance	Production: 170,000 – 180,000 ozs Cash Operating Cost (C1) ⁽¹⁾ : \$670-\$770/oz sold

RESERVES AND RESOURCES ⁽²⁾

	Tonnes (x1000)	Grade (g/t Au)	Contained Ounces (x1000 Au)
P&P Reserves - Lamaque	4,630	6.62	985
M&I Resources - Lamaque	7,103	7.91	1,806
Inferred Resources - Lamaque	10,003	7.32	2,354
Inferred Resource – Ormaque	2,223	11.74	839

Exploration Upside

- Large resource base and exploration upside from nearby targets
- Strategic land positions in highly-prospective jurisdictions; QMX acquisition increased land package by 5.5x

Lamaque Growth Plan

Our growth plan entails staged mine development and resource conversion

Significant growth since acquisition

- Actual and planned production exceeds 2018 PFS
- Extended mine life with **~5.5 years** of production from Upper Triangle reserves, and potential for an additional **~8.5 years** of mine life from Lower Triangle and Ormaque inferred resources

Gold Production for the Upper Triangle Reserve Case

Olympias

Carbonate replacement style deposit with high gold-grades and an orebody that will allow for mining rates up to 1 million tonnes per year

OVERVIEW

Location	Halkidiki Peninsula, Greece
Ownership	100%
Mine type	Underground
Metals mined	Gold, Silver, Lead, Zinc
Processing method	Milling circuit followed by flotation
Commercial production	2017
Life of mine	15 years based on Reserves; additional 2 years based on Resources
2022 Results	56,333 ozs produced at \$2,155/oz AISC ⁽¹⁾ and C1 Cost ⁽¹⁾ of \$1,409/oz sold
2023 Guidance	Production: 60,000 – 75,000 ozs Cash Operating Cost (C1) ⁽¹⁾ : \$980-\$1,080/oz sold

RESERVES AND RESOURCES ⁽²⁾

	Tonnes (x1000)	Grade (g/t Au)	Contained Ounces (x1000 Au)	Grade (g/t Ag)	Contained Ounces (x1000 Ag)
P&P Reserves	8,243	6.93	1,836	132	35,094
M&I Resources	12,937	8.00	3,329	148	61,651
Inferred Resources	2,186	7.97	560	190	13,368

Focus on Growth

- Continue to work on productivity improvements
- Plans to expand throughput to 650,000 tpa

Skouries

High-grade gold-copper porphyry deposit that is a key driver of Eldorado's growth story

OVERVIEW

Location	Halkidiki Peninsula, Greece
Deposit type	Gold-copper porphyry
Ownership	100% Eldorado
Mining/ Processing	Open pit & underground / flotation & gravity
Life of Mine	20 years based on Reserves
Products produced	Gold doré, copper/gold concentrate
Production target	~ 2.5 years after construction is restarted
Contained metal in Proven & Probable Reserves ^(5,6)	3.6 Moz Au, 740K tonnes Cu
Contained metal in Measured & Indicated Resources ^(5,6)	5.0 Moz Au, 1.1K tonnes Cu

Life of Mine (LOM) Project Economics⁽²⁾

At Spot
Au & Cu⁽³⁾

Annual gold production	140,000 oz	
Annual gold equivalent production	312,000 oz	
Cash operating costs ⁽¹⁾	\$(365)/oz	\$(341)/oz
AISC ⁽¹⁾	\$(6)/oz	\$65/oz
NPV-5% ⁽⁴⁾	\$1.3 B	\$1.6 B
Project IRR ⁽⁴⁾	19%	22%

Advancing Skouries

- €680 million financing package secured for the development of Skouries
- Released updated feasibility study in December 2021

Skouries will be a Resilient, Modern, Long-Life, Low-Cost Asset

A Top Tier Asset with potential to have a Significant, Positive Impact on Eldorado Gold

- **High-grade** and **long-life** gold-copper asset with transformational exploration **upside** through extensions at depth and discovery of satellite orebodies
- Provides a foundation for regional growth through **future expansions** in the Halkidiki region

Designed for Operational Excellence

- Robust project economics, including a **negative \$6/oz all in sustaining cost**^{1,2}
- Site operations significantly **de-risked** through existing infrastructure, lessons learned and recent feasibility study
- Skouries will decrease Eldorado's consolidated total cash cost per ounce ~40%^{1,2,3}

Sustainable Development Enables Long Term Growth

- Safety & environment embedded in design - **water management** and **dry stack tailings**
- Climate change effects are also incorporated in the improved water management plan, given changing weather events
- Strong relationships and transparent engagement with government as **demonstrated by the Amended Investment Agreement** ratified by Greek Parliament

Skouries Feasibility Study at a Glance

Perama Hill

Low-cost epithermal gold-silver project with transformative growth potential

OVERVIEW

Location	Thrace, Greece
Ownership	100%
Mine type	Open pit
Metals mined	Gold, Silver
Deposit type	Epithermal gold-silver
Life of mine ⁽³⁾	10 years based on Reserves
Grades ⁽³⁾	High grade (3.2 g/t), open pit strip ratio of ~0.3
Expected production ⁽³⁾	Approximately 100,000 oz Au per year
Expected costs ⁽³⁾	Cash operating costs ⁽¹⁾ \$430/oz

RESERVES AND RESOURCES ⁽²⁾

	Tonnes (x1000)	Grade (g/t Au)	Contained Ounces (x1000 Au)	Grade (g/t Ag)	Contained Ounces (x1000 Ag)
P&P Reserves	12,498	3.11	1,250	7	2,680
M&I Resources	14,066	3.04	1,374	7	2,994
Inferred Resources	1,136	1.63	59	2	83

Supports the Growth Pipeline

- Next mine expected to be developed after Skouries
- Exploration potential in the Thrace region, supporting opportunities for growth
- Excluded from Hellas Gold Greek bank financing and not guaranteed under Senior Notes

Appendix

Eldorado Gold Executive Management Team

Experienced Operators Supported by a Committed and Proven Leadership Team

Executive Leadership

George Burns
President & CEO

- 30 years of experience in the mineral sector including executive, operations, development and engineering leadership roles in gold, copper and coal operations
- Prior to joining Eldorado, he was EVP & COO at Goldcorp
- Began his career with Anaconda Company in 1978

Joseph Dick
Executive VP & COO

- Over 35 years of mining experience, including executive, safe operations, projects, engineering and production support roles in gold, silver and base metal operations
- Prior to joining Eldorado, was SVP, Latin American Operations at Goldcorp

Philip Yee
Executive VP & CFO

- Extensive experience in the mining industry, financial management and reporting, financial and operational recovery, M&A, international risk management and strategy development
- Prior to joining Eldorado, was EVP & CFO at Kirkland Lake Gold

Frank Herbert
Executive VP, GC, and Chief Compliance Officer

- Extensive experience in the mining sector
- Previously President and GC at Centerra Gold Inc.
- Over 15 years in private practice at major Canadian law firms
- Significant experience working with the investment community in Europe and North America

Lisa Ower
Executive VP, People and External Affairs

- Over 25 years of extensive international experience in human resources, strategy, transformation, M&A, communications and stakeholder relations
- Prior to joining Eldorado, Lisa has held executive and senior leadership roles at Enerplus, Veresen, Talisman and Celestica

Board of Directors

Steven Reid
Chair of the Board

George Burns
President & CEO

Carissa Browning

Low-cost Operations

Eldorado's total cash costs are in line with the industry-weighted average and expected to trend lower given growth profile

Future Cash Flow Opportunities

Opportunities for additional cash flow to support the balance sheet

G Mining Ventures (Tocantinzinho)

- ~18% equity ownership of G Mining
 - GMIN-TSXV market cap is ~C\$380M (Feb 22, 2023)
- Deferred cash payment, to Eldorado, of \$60M will be paid on the first anniversary of TZ commercial production
 - GMIN has the option to defer 50% (at a cost of \$5M), in which case \$30M is payable on the 1st anniversary of TZ commercial production, and \$35M is payable on the 2nd anniversary
- G Mining expects the first gold production in the H2 2024 with the first full year of production expected in 2025

Pending Sale of Certej

- Consideration is expected to include:
 - \$18M cash upon closing of the transaction;
 - Deferred consideration of \$12M in cash, with \$5M and \$7M payable 24 months and 36 months, respectively, following the receipt of the building permit; and
 - We will retain a 1.5% net smelter return ("NSR") royalty on the project.
- Expected to close in the first half of 2023

2022 Exploration Performance

2022 Exploration and evaluation spending was \$37 million
(52% expensed, 48% capitalized)

Growth Will Focus on Low-Cost, Long-Life Assets

Skouries and Perama Hill development projects are low-cost, long-life assets

- (1) These are non-IFRS financial measures or ratios. See Slide 2 'Non-IFRS Measures' for more information.
- (2) Life of Mine based on Sept 30, 2022 Reserves. Lamaque and Olympias include Resources in the Life of Mine plan.
- (3) Cash Operating Costs per ounce sold and Production based on 2023 guidance (mid-point), unless otherwise noted.
- (4) Indicative operating data based on Skouries Technical Report dated January 22, 2022.
- (5) Indicative operating data based on Perama Hill Technical Report dated January 2010.

Sustainability Framework

Sustainability framework articulates four key commitments highlighting our commitment to ESG

Safe, Inclusive and Innovative Operations

- Focused on workforce health and safety engagement
- Mitigating risk by implementing dry-stack tailings
- Achievement of gender parity on the Board and committed to 30% female senior management by 2023

Responsibly Produced Products

- Completed Year 2 external assurance and conformance with the World Gold Council's ("WGC") Responsible Gold Mining Principles
- Producer of conflict-free gold as per WGC's standard

Engaged & Prosperous Communities

- Support for in-country community projects (\$2.6M) including critical infrastructure, access to education and health care
- Payments to in-country suppliers accounted for \$478M, or 84% of total supplier spending

Healthy Environments Now & The Future

- Development of an energy & carbon management system to identify opportunities for energy efficiency and GHG reductions
- Over 23 hectares of land reclaimed to its original state in 2021

Inclusive Diversity

Committed to fostering safe and inclusive workplaces that value diversity, personal growth and innovation

Global Initiatives

- Artemis Project, IWIM & WIMBC Sponsors
- Participant of the Bloomberg Gender-Equality Index
- Global Employee Listening Strategy: Most recent 2022 Integrity Survey found 90% of participants were favorable on having clear standards for ethical behaviour
- Neuroscience training among global leaders to mitigate bias in decisions and strengthen psychological safety
- Inaugural global gender pay equity review (2022) indicated an adjusted pay gap⁽¹⁾ of less than 2% in most jurisdictions; we are now in remediation to close the gap.

Corporate Initiatives

- Robust [Diversity Policy](#) with aspirational targets at senior levels and gender parity already achieved at Board-level
- Debiased recruitment practices, including blind recruitment techniques
- Scholarship for Women in Mining Engineering with the University of British Columbia

Operating Sites

- **Greece:** Committed to Gender Equality in Greece as evidenced through achievement of the 2022 Share Equality Label award.
- **Québec:**
 - Recruitment of 2 female Chilean engineers (Artemis Project)
 - Research project on integration and retention of members of the Anicinapek communities (Université du Québec A-T)
 - Training on the culture of the Anicinapek communities
 - Partnership with Women in Mining Abitibi on their new mentoring platform
- **Türkiye: Breaking New Ground on Gender Equality**
 - Defying traditional gender stereotypes for certain roles in mining
 - Programs in place to support women entrepreneurs in rural development

(1) An adjusted pay gap is the difference between male and female pay, once explainable factors are accounted for (e.g., job level, experience, performance, and market competitiveness).

Climate Change Strategy

30% mitigation in GHG emissions by 2030, equivalent to removing approximately 65,000 tCO₂e⁽¹⁾

GHG Emissions Mitigation Target

- Leverages Eldorado's leading emissions intensity among peers
- Supports alignment with Eldorado's SIMS, and commitments to the RGMPs, TSM and the TCFD
- Will be continually reassessed, pending further opportunities for energy use and GHG emissions reduction
 - Opportunities under investigation include access to cleaner energy and electricity, fleet decarbonization, and onsite renewable electricity generation

Did you know?

The Lamaque mine in Québec, is powered exclusively by low-emission hydroelectricity, which helps to make it among the lowest GHG intensity gold mines in the world.

Capitalize on Eldorado's lower emissions intensity relative to industry peers, further reduce our carbon footprint, and ensure business resilience in response to climate change.

REDUCE CARBON FOOTPRINT

- Implement an Energy and Carbon Management System (ECMS) at all operations
- Establish energy and GHG emission reduction targets to drive continuous improvement
- Drive efficiencies through technology and process improvements in a phased approach
- Create a culture of energy and climate responsibility through leadership, awareness, effective governance and recognition

INTEGRATE CARBON IN DECISION MAKING

- Include carbon and energy considerations in stage-gate decision making within the Eldorado Corporate Investment Framework
- Apply a shadow price on carbon within project evaluations and annual budgeting
- Integrate carbon considerations into procurement criteria and decisions

SUPPORT THE LOW-CARBON TRANSITION

- Seek to replace fossil fuel energy sources with low-carbon energy supplies (renewables) where feasible
- Seek to introduce electrification and low-carbon processes and technologies where feasible

MANAGE CLIMATE RISKS

- Regularly assess materiality of climate risks and opportunities to the business using recognized approaches
- Model physical impacts of climate change on our assets and regions where we operate to inform planning and decision making

ENHANCE RESILIENCE

- Develop climate change adaptation models and tools to prepare for anticipated climate changes and ensure business resilience
- As part of community investment, work in partnership with local and regional governments to understand and adapt to the impacts of climate change

Greece: Foreign Direct Investment

FDI into Greece is at a record high level under New Democracy Government

Net FDI Inflows in Greece

- Record levels of FDI inflows in Greece signal upward trajectory of Greek economy and successful effort in recent years to attract FDI into Greece

Recent Examples of FDI in Greece

- Lamda Development (former airport at Ellinikon) plans to invest €8 billion which is expected to be the largest private investment ever to be made in Greece
- Microsoft plans to invest €1 billion
- Italgas plans to invest €733 million
- Pfizer plans to invest €600 million
- Amazon Web Services plans to invest €150- €200 million

World Gold Council: Gold 247

Gold 247

What is Gold 247?

The World Gold Council's strategic vision for **transforming the global gold market** and elevating gold into the mainstream of financial markets. The initiative will ultimately **enable greater participation, increase trust and unlock greater demand.**

Why now?

Gold has a systemic role in the world's economy – as an investment, a reserve asset, a source of employment and more. **The way gold is traded and supply chain management needs to modernise** so the industry continues to meet the expectations of all end-users and stakeholders.

Gold 247 Initiatives

Gold Bar Integrity Programme

- WGC/LBMA pilot
- Distributed ledger (blockchain) technology
- Foundation for a more accessible and fungible market

Accessible to all

- Enabling a digital transformation
- Removing barriers and establishing modern market infrastructure
- Essential to modernise and improve accessibility

Fully fungible

- Addresses barriers to trading gold across markets
- Intent is to establish a global standard
- In time, this will allow gold to be effectively traded as a digital asset

Notes on Mineral Resources and Reserves

1. Mineral resources and mineral reserves are as of September 30, 2022.
2. The mineral resources and mineral reserves were classified using logic consistent with the CIM Definition Standards for Mineral Resources & Mineral Reserves (2014) incorporated, by reference, into National Instrument 43-101 – Standards of Disclosure for Mineral Projects (NI 43-101).
3. Mineral reserves are included in the mineral resources.
4. The mineral resources and mineral reserves are disclosed on a total project basis.

Mineral resources which are not mineral reserves do not have demonstrated economic viability. With respect to “inferred mineral resources”, there is a great amount of uncertainty as to their existence and a great uncertainty as to their economic and legal feasibility. It cannot be assumed that all or any part of an “indicated mineral resource” or “inferred mineral resource” will ever be upgraded to a higher category.

Mineral Reserve Notes:

1. Long Term Metal Price assumptions: Gold = \$1,300/oz; Silver = \$17.00/oz; Copper = \$2.75/lb; Pb price = \$2,000/t and Zn price = \$2,400/t.
2. Cut-off grades: Certej: 0.90 g/t Au Equivalent grade ($=Au(g/t)+Ag(g/t)*0.0121$); Efemçukuru: \$104/t NSR (long hole stoping), \$108/t NSR (drift and fill); Kışladağ: 0.18 g/t Au Recoverable; Lamaque: 4.69 g/t Au; Olympias: \$195/t NSR; Perama Hill: 0.73 g/t Au; Skouries: \$10.60/t NSR (open pit), \$33.33/t NSR (underground).
3. Qualified Persons: Terry Cadrin, P.Eng., Director, Business Planning and LOM Evaluations for the Company, is responsible for Efemçukuru, Kışladağ, Perama Hill, and Skouries (open pit) mineral reserves; Gary Methven, P. Eng., of AMC, is responsible for Skouries (underground) mineral reserves; Jessy Thelland, géo (OGQ No. 758), Technical Services Director Lamaque for the Company, is responsible for Lamaque mineral reserves; Victor Vdovin, P. Eng., Head of Mining Greece for the Company, is responsible for Olympias mineral reserves.

Mineral Resource Notes:

1. Long Term Metal Price assumptions: Gold = \$1,800/oz; Silver = \$24.00/oz; Copper = \$3.25/lb; Pb price = \$2,200/t and Zn price = \$2,600/t.
2. Mineral Resource Reporting and demonstration of Reasonable Prospects for Eventual Economic Extraction: The mineral resources used a long term look gold metal price of \$1,800/oz for the determination of resource cut-off grades or values. This guided execution of the next step where constraining surfaces or volumes were created to control resource reporting. Open pit-only projects (Kışladağ, Perama Hill, and Perama South) used pit shells created with the long term gold price to constrain reportable model blocks. Underground resources were constrained by 3D volumes whose design was guided by the reporting cut-off grade or value, contiguous areas of mineralization and mineability. Only material internal to these volumes were eligible for reporting. Projects with both open pit and underground resources have the open pit resources constrained by either the permit (Skouries) and/or pit shell, and underground resources constrained by a reporting shape.
3. Cut-off grades: Certej: 0.60 g/t Au; Efemçukuru: 2.5 g/t Au; Kışladağ: 0.25 g/t Au; Lamaque: 3.0 g/t Au; Ormaque: 3.5 g/t Au; Olympias: \$125/t NSR; Perama Hill and Perama South: 0.50 g/t Au; Piavitsa: 4.0 g/t Au; Sapes: 2.5 g/t Au (underground), 1.0 g/t Au (open pit); Skouries: 0.30 g/t Au Equivalent grade (open pit), 0.70 g/t Au Equivalent grade (underground) ($=Au\ g/t + 1.25*Cu\%$); Stratoni: \$200/t NSR.
4. Qualified Persons: Sean McKinley, P.Geo., Manager, Mine Geology & Reconciliation for the Company, is responsible for the Certej, Perama Hill, Perama South, Piavitsa, Sapes and Skouries mineral resources; Jessy Thelland, géo (OGQ No. 758), Technical Services Director Lamaque for the Company, is responsible for Lamaque and Ormaque mineral resources; Ertan Uludag, P.Geo., Manager, Resource Geology for the Company, is responsible for the Efemçukuru, Kışladağ, Olympias and Stratoni mineral resources.

Notes on Mineral Resources and Reserves (cont'd)

All Mineral Reserves and Mineral Resources have been estimated in accordance with the standards of the CIM and NI 43-101. Sample preparation, analytical techniques, laboratories used, and quality assurance and quality control protocols used during exploration drilling programs are done consistent with industry standards while independent certified assay labs are used. Additional information on the mineral properties mentioned in this presentation that are considered to be material mineral properties to the Company are contained in Eldorado's news release dated December 5, 2022, Eldorado's annual information form for the year ended December 31, 2021 and the following technical reports for each of those properties, all of which are available under the Company's profile at www.sedar.com and www.sec.gov:

- Technical report entitled "Technical Report, Kisladag Gold Mine, Turkiye" with an effective date of January 17, 2020.
- Technical report entitled "Technical Report, Efemcukuru Gold Mine, Turkiye" with an effective date of December 31, 2019.
- Technical report entitled "Technical Report, Olympias Mine, Greece" with an effective date of December 31, 2019.
- Technical report entitled "Technical Report, Skouries Project, Greece" with an effective date of January 22, 2022.
- Technical report entitled "Technical Report, for the Lamaque Project, Quebec, Canada" with an effective date of December 31, 2021.

Thank You
