Forward Looking Statement

Definitions

Capitalized terms used in this presentation but not otherwise defined herein have the meanings ascribed thereto in the Management's Discussion and Analysis dated October 31, 2024 of Eldorado Gold Corporation for the three and nine months ended September 30, 2024 (the "MD&A").

Reporting Currency

All amounts are presented in U.S. dollars ("\$\$") unless otherwise stated. Unless otherwise specified, all tabular amounts are expressed in millions of U.S. dollars, except share, per share or per ounce amounts. Due to rounding, numbers presented throughout may not add precisely to the totals provided.

Cautionary Note about Forward-looking Statements and Information

Certain of the statements made and information provided in this presentation are forward-looking statements or forward-looking information within the meaning of the United States Private Securities Litigation Reform Act of 1995 and applicable Canadian securities laws. Often, these forward-looking statements and forward-looking information can be identified by the use of words such as "anticipates", "believes", "budgets", "continue", "commitment", "confident", "estimates", "expects", "forecasts", "guidance", "intends", "outlook", "plans", "potential", "projected", "prospective", or "schedule" or the negatives thereof or variations of such words and phrases or statements that certain actions, events or results "can", "could", "likely", "may", "might", "will" or "would" be taken, occur or be achieved.

Forward-looking statements or information contained in this presentation include, but are not limited to, statements or information with respect to: our expectations of reaching 2024 guidance ranges; 2024 full year guidance (and specifically, on a consolidated basis and as appropriate by material property, forecasted gold production, total cash cost and AISC); future health and safety focus; our beliefs in the value of maintaining a solid financial position; with respect to the Skouries Project: future ramp up of specific construction activities, and expectations of progress at year end, expected 2024 capital spend, expected personnel on site at year end 2024; the expected expansion at Olympias; initiatives at Kisladag to improve operational challenges; progress at Ormaque and expected announcement of an inaugural reserve; timing of an updated technical report at Lamaque; our expected production growth through 2027; expectations on production, costs and metal prices; our belief that we will be one of the EU's largest copper producers; and generally plans and goals, including our proposed exploration, development, construction, permitting, financing and operating potential, plans and priorities and related timelines and schedules.

Forward-looking statements or information are by their nature based on a number of assumptions, that management considers reasonable. However, such assumptions involve both known and unknown risks, uncertainties and other factors which, if proven to be inaccurate, may cause actual results, activities, performance or achievements to be materially different from those described in the forward-looking statements or information. These include assumptions concerning: timing, cost and results of our construction and development activities, improvements and exploration; the future price of gold and other commodities; exchange rates; anticipated values, costs, expenses and working capital requirements; production and metallurgical recoveries; mineral reserves and resources; our ability to unlock the potential of our brownfield property portfolio; our ability to address the negative impacts of climate change and adverse weather; consistency of agglomeration and our ability to optimize it in the future; the cost of, and extent to which we use, essential consumables (including fuel, explosives, cement, and cyanide); the impact and effectiveness of productivity initiatives; the time and cost necessary for anticipated overhauls of equipment; expected by-product grades; the use, and impact or effectiveness, of growth capital; the impact of acquisitions, dispositions, suspensions or delays on our business; the sustaining capital required for various projects; and the geopolitical, economic, permitting and legal climate that we operate in (including recent disruptions to shipping operations in the Red Sea and any related shipping delays, shipping price increases, or impacts on the global energy market).

This presentation contains information that may constitute future-orientated financial information or financial outlook information (collectively, "FOFI") about Eldorado's prospective financial performance, financial position or cash flows, all of which is subject to the same assumptions, risk factors, limitations and qualifications as set forth above. Readers are cautioned that the assumptions used in the preparation of such information, although considered reasonable at the time of preparation, may prove to be imprecise or inaccurate and, as such, undue reliance should not be placed on FOFI. Eldorado's actual results, performance and achievements could differ materially from those expressed in, or implied by, FOFI. Eldorado has included FOFI in order to provide readers with a more complete perspective on Eldorado's future operations and management's current expectations relating to Eldorado's future performance. Readers are cautioned that such information may not be appropriate for other purposes. FOFI contained herein was made as of the date of the Management's Discussion & Analysis for the three and nine months ended September 30 2024, which is available on the Company's website and filed on Sedar+ and EDGAR. Unless required by applicable laws, Eldorado does not undertake any obligation to publicly update or revise any FOFI statements, whether as a result of new information, future events or otherwise.

With respect to the Skouries project, we have made additional assumptions about the ramp up of construction personnel on site; labour productivity, rates and expected hours; the scope and timing related to the awarding of key contract packages and approval thereon; capital spend rates; our ability to obtain and maintain all required approvals and permits in a timely manner, both overall and specifically, in relation to equipment, people mobility and power; expected scope of project management frameworks; the timeliness of shipping for important or critical items; our ability to continue to access our project funding and remain in compliance with all covenants and contractual commitments in relation thereto; completion of required archaeological investigations, the future price of gold, copper and other commodities; inflation rates; the broader community engagement and social climate in respect of the Skouries project; and generally, our ability to continue to execute our plans relating to Skouries on the existing project timeline and consistent with the current planned project scope.

In addition, except where otherwise stated, Eldorado has assumed a continuation of existing business operations on substantially the same basis as exists at the time of this presentation. Even though we believe that the assumptions and expectations represented by such statements or information are reasonable, there can be no assurance that the forward-looking statement or information will prove to be accurate. Many assumptions may be difficult to predict and are beyond our control.

Forward-looking statements or information is subject to known and unknown risks, uncertainties and other important factors that may cause actual results, activities, performance or achievements to be materially different from those described in the forward-looking statements or information. These risks, uncertainties and other factors include, among others: risks relating to our operations in foreign jurisdictions (including recent disruptions to shipping operations in the Red Sea and any related shipping delays, shipping price increases, or impacts on the global energy market); development risks at Skouries and other development projects; community relations and social license; liquidity and financing risks; climate change; inflation risk; environmental matters; production and processing; waste disposal; geotechnical and hydrogeological conditions or failures; the global economic environment; risks relating to any pandemic, epidemic, endemic or similar public health threats; reliance on a limited number of smelters and off-takers; labour (including in relation to employee/union relations, the Greek transformation, employee misconduct, key personnel, skilled workforce, expatriates, and contractors); indebtedness (including current and future operating restrictions, implications of a change of control, ability to meet debt service obligations, the implications of defaulting on obligations and change in credit ratings); government regulation; the Sarbanes-Oxley Act; commodity price risk; mineral tenure; permits; risks relating to environmental sustainability and governance practices and performance; financial reporting (including relating to the carrying value of our assets and changes in reporting standards); non-governmental organizations; corruption, bribery and sanctions; information and operational technology systems; litigation and contracts; estimation of mineral reserves and mineral resources; different standards used to prepare and report mineral reserves and mineral resources; credit risk; price volatility, volume fluctuations and dilution risk in respect of our shares; actions of activist shareholders; reliance on infrastructure, commodities and consumables (including power and water); currency risk; interest rate risk; tax matters; dividends; reclamation and long-term obligations; acquisitions, including integration risks, and dispositions; regulated substances; necessary equipment; co-ownership of our properties; the unavailability of insurance; conflicts of interest; compliance with privacy legislation; reputational issues; competition, and those risk factors discussed in our most recent Annual Information Form & Form 40-F. The reader is directed to carefully review the detailed risk discussion in our most recent Annual Information Form & Form 40-F filed on SEDAR+ and EDGAR under our Company name, for a fuller understanding of the risks and uncertainties that affect our business and operations.

The inclusion of forward-looking statements and information is designed to help you understand management's current views of our near- and longer-term prospects, and it may not be appropriate for other purposes. There can be no assurance that forward-looking statements or information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, you should not place undue reliance on the forward-looking statements or information contained herein. Except as required by law, we do not expect to update forward-looking statements and information continually as conditions change and you are referred to the full discussion of the Company's business contained in the Company's reports filed with the securities regulatory authorities in Canada and the United States.

Qualified Person

Except as otherwise noted, Simon Hille, FAusIMM, Executive Vice President, Operations and Technical Services, is the Qualified Person under NI 43-101 responsible for preparing and supervising the preparation of the scientific or technical information contained in this presentation and verifying the technical data disclosed in this presentation relating to our reserves, operating mines and development projects. Jessy Thelland, géo (OGQ No. 758), a member in good standing of the Ordre des Géologues du Québec, is the qualified person as defined in NI 43-101 responsible for, and has verified and approved, the scientific and technical disclosure contained in this presentation for the Lamaque Complex.

Non-IFRS Measures

Certain non-IFRS financial measures and ratios are included in this presentation, including total cash costs and total cash costs per ounce sold, all-in sustaining costs ("AISC") and AISC per ounce sold, sustaining and growth capital, average realized gold price per ounce sold, adjusted net earnings/(loss) attributable to shareholders, adjusted net earnings/(loss) per share attributable to shareholders, earnings before interest, taxes, depreciation and amortization ("EBITDA"), adjusted earnings before interest, taxes, depreciation and amortization ("Adjusted EBITDA"), free cash flow, free cash flow excluding Skouries and cash flow from operating activities before changes in non-cash working capital. In the gold mining industry, these are common performance measures but may not be comparable to similar measures presented by other issuers.

The Company believes that these measures and ratios, in addition to conventional measures and ratios prepared in accordance with International Financial Reporting Standards ("IFRS"), provide investors an improved ability to evaluate the underlying performance of the Company. The non-IFRS and other non-financial measures and ratios are intended to provide additional information to assist in their evaluation of the Company's performance and ability to generate cash flow from operating activities and should not be considered in isolation or as a substitute for measures or ratios of performance prepared in accordance with IFRS. These measures and ratios do not have any standardized meaning prescribed under IFRS, and therefore may not be comparable to other issuers.

Certain additional disclosures for these non-IFRS measures, including quantitative reconciliations to the most directly comparable IFRS financial measures, are incorporated by reference herein and can be found in the section 'Non-IFRS and Other Financial Measures and Ratios' starting at page 27 in the MD&A that will be available on SEDAR+ at <http://www.sedarplus.ca>, on EDGAR at www.sec.gov, and on the Company's website under the 'Investors' section.

Strong Financial Position

Focus on maintaining solid financial position which provides flexibility to unlock value across our business

TOTAL LIQUIDITY: \$885 million

Cash balance + availability on senior secured credit facility ⁽¹⁾

CASH, CASH EQUIVALENTS & TERM DEPOSITS⁽¹⁾: \$677 million

CREDIT FACILITY: \$350 million ARCA ⁽²⁾, plus \$100 million accordion Skouries Project credit facility reduces availability under the ARCA as Eldorado's investment undertaking is fully back-stopped by the letter of credit issued. Current availability is \$208 million.

NET DEBT TO ADJUSTED EBITDA ⁽³⁾: 0.03 X

Below ARCA covenant limit of 3.5 x

NEXT DEBT MATURITY: Sept. 2029

\$500 million senior unsecured notes with a coupon rate of 6.25%⁽⁴⁾

Liquidity Position^(1,2)

(as of Sept 30, 2024)

(1) Cash position reflects the Company's cash balance, cash equivalents, and term deposits, including \$142 million of cash held by Hellas Gold for Skouries project cash. Amounts are derived from the Q3 2024 financial statements. (2) Eldorado's investment undertaking is fully back-stopped by the letter of credit issued, which reduces the availability under the ARCA. On June 27, 2024, Eldorado entered into \$350 million amended and restated senior secured credit facility with an option to increase the available credit by \$100 million through an accordion feature and a maturity date of June 27, 2028. (3) Based on the ARCA covenant limit, based only on Material Subsidiaries (which excludes Greek subsidiaries). (4) Interest paid semi-annually on March 1 and September 1.

Skouries: Recent Achievements

Underground mining, mechanical, piping and instrumentation in the process plant continued to ramp up
